Foxx,James A. Mulick,2015-10-14 One of the largest and most complex human services systems in history has evolved to address the needs of people with autism and intellectual disabilities yet important questions remain for many professionals administrators and parents What approaches to early intervention education treatment therapy and remediation really help those with autism and other intellectual disabilities improve their functioning and adaptation Alternatively what approaches represent wastes of time effort and resources Controversial Therapies for Autism and Intellectual Disabilities 2nd Edition brings together leading behavioral scientists and practitioners to shed much needed light on the major controversies surrounding these questions Expert authors review the origins perpetuation and resistance to scrutiny of questionable practices and offer a clear rationale for appraising the quality of various services The second edition of Controversial Therapies for Autism and Intellectual Disabilities has been fully revised and updated and includes entirely new chapters on psychology fads why applied behavioral analysis is not a fad rapid prompting relationship therapies the gluten free casein free diet evidence based practices state government regulation of behavioral treatment teaching ethics and a parents primer for autism treatments **Controversial Therapies for Developmental Disabilities** John W. Jacobson,Richard M. Foxx,James A. Mulick,2005-01-15 One of the largest and most complex human services systems in Western nations has evolved to address the needs of people with developmental disabilities In the U S for example school budgets are stretched thin by legally mandated special education and billions of Medicaid dollars annually are consumed by residential and professional services

to this population The temptation of a quick fix is strong Many parents desperately seek the latest ideas and place pressure on program administrators who often are not trained to think critically about the evidence base for intervention efforts The problems of people with developmental disabilities have historically been targeted by a wide range of professionals who rely on clinical experience and intuition and do not submit their claims to the tests of scientific research Professional entrepreneurs have energetically promoted their treatments to a public perhaps too trustful of those with credentials Thus families and their children are buffeted by reforms founded on belief and ideologically driven management Services fluctuate with the currents of social movements and rapidly shifting philosophies of care as policymakers and providers strive for increased responsiveness and individualization These forces affect not only where and how but how well people are served Too often services are less effective than they could be or worse damaging to personal growth and quality of life Many treatments are based on poorly understood or even disproven approaches What approaches to early intervention education therapy and remediation really help those with mental retardation and developmental disabilities improve their functioning and adaptation And what approaches represent wastes of time effort and resources This book brings together leading behavioral scientists and practitioners to focus light on the major controversies surrounding these questions The authors review the origins perpetuation and resistance to scrutiny of questionable practices and offer a clear rationale for appraising the quality of services In an era of increasing accountability no one with a professional stake in services to individuals with mental retardation and developmental disabilities can afford not to read this book **Dishonour** Gabrielle Lord, 2014-08-26

Australia's queen of crime fiction is back with a chilling new story that taps straight into the issues of our times Detective Inspector Deb Hawkins has domestic violence in her sights But as head of a new police unit that targets violence against women within cultural enclaves she is battling a wall of silence How can she win the trust of Rana Al Sheikly the distressed young woman she encounters during the investigation of yet another gang related drive by shooting And what is the connection between the al Sheikly family and the crime gangs that are running rife in the suburbs A series of anonymous emails has Deb following her own domestic secrets too back to her childhood in the country town of Garralong and the tragic shooting murder of her police sergeant father in the line of duty Someone is digging up the past threatening Deb's hard won career and even her life Dishonour is a gripping and timely new novel from one of Australia's most respected crime writers
