THE GAME OF BLACKJACK

Blackjack, also known as Twenty-one, is one of the world's most popular casino games. In Blackjack, the dealer deals cards to seven players. These rules vary from casino to casino, but all versions of the game are based on the same principles. The objective of the game is to get a 21 or closer to that value than the dealer.

All bets are placed at the beginning of the game, before players receive their

cards. If the player beats the dealer they receive double the bet they placed. If the dealer beats the player, the player loses the bet amount that they bet.

The dealer always has cards to 17 and must draw to 17 or higher. The player's cards are dealt face up while the dealer's cards are dealt face down. One of the player's cards is turned over to reveal the dealer's hand.

Each turn and reveals the dealer's hand. All the cards are dealt according to the player's and dealer's results.

This game is known for its complex strategy. The player will choose the best of the game as well as help new players understand the strategy.
