MT-6	Line input transformer

NOTE: All tests conducted in accordance with E.E.A. Standards SE-100-A where applicable.

DESCRIPTION

The McMartin LT-80B is a conservatively rated, 8 watt AUDIO/PA amplifier specifically designed for commercial sound and background music installations. Outstanding performance, quality and reliability are assured.

The microphone channel is high impedance with individual level control, professional 3-pin microphone connector (Model C-1F is standard equipment). For balanced low impedance, the MT-4 plug-in microphone input transformer is available. Sockets for the MT-4 transformers are standard equipment, with a tone control (cut to -15db @ 10,000 Hz).

The standard program channel is 15,000 ohms unbalanced with a tone control (cut to -15db @ 10,000 Hz).

With the installation of the PH-6B, PH-7 or PH-8A, the program input operates with a crystal, ceramic or magnetic phono; tape recorder; tuner or similar program source. For matching a balanced line, a socket is provided for the installation of the MT-4 universal plug-in transformer. Screw-type terminals are provided for this connection.

The speaker outputs consist of a balanced 70.7 volts, 25 volts and a normal 8 ohms impedance.

PROGRAM INPUTS

15K Ohm Bridging Input

The 15,000 ohm input connection is made at the screw-type terminals on the rear of the chassis marked 15K IN. This standard unbalanced bridging input is for connection of a low or medium impedance input.

Program Preamp Input

The PROGRAM jack, J4, is mounted on the rear of the chassis and is connected directly to the transformer socket, J3. (See schematic.) This jack is used for connection of high impedance source equipment such as a radio tuner. When used for this application, the optional high impedance plug-in preamplifier, PH-7, is required. The PH-7 preamplifier is easily inserted into the transformer socket, J3, and the high impedance source input is connected to the PROGRAM jack, J4. Use shielded cable and a phono plug for this connection.

Phonograph

A ceramic or crystal phono input may be used by inserting the plug-in Model PH-6B phono preamp into the PRO-
