Sakiko Fukuda-Parr, 2017-07-14 Heralded as a success that mobilized support for development the Millennium Development Goals MDGs ushered in an era of setting development agendas by setting global goals This book critically evaluates the MDG experience from the capabilities and human rights perspectives and questions the use of quantitative targets as an instrument of global governance It provides an account of their origins trajectory and influence in shaping the policy agenda and ideas about international development during the first 15 years of the 21st century The chapters explore whether the goals are adequate as benchmarks for the transformative vision of the Millennium Declaration how the goals came to be formulated the way they were drawing on interviews with key actors who were involved in the process how the goals exercised influence through framing to shape policy agendas on the part of both developing countries and the international community the political economy that drove the formulation of the goals and their consequences on the agendas of the South and the North the effects of quantification and indicators on ideas and action and the lessons to be drawn for using numeric goals to promote global priorities Representing a significant body of work on the MDGs in its multiple dimensions compiled here for the first time as a single collection that tells the whole definitive story this book provides a comprehensive resource It will be of great interest to students researchers and policymakers in the fields of development human rights international political economy and governance by numeric indicators

Global Monitoring Report, 2010 International Monetary Fund, 2010-04-22 What is the human cost of the global economic crisis This year's Global Monitoring Report The MDGs after the Crisis examines the impact of the worst recession since the Great Depression on poverty and human development outcomes in developing countries Although the recovery is under way the impact of the crisis will be lasting and immeasurable The impressive precrisis progress in poverty reduction will slow particularly in low income countries in Africa No household in developing countries is immune Gaps will persist to 2020 In 2015 20 million more people in Sub Saharan Africa will be in extreme poverty and 53 million more people globally Even households above the 1.25 a day poverty line in higher income developing countries are coping by buying cheaper food delaying other purchases reducing visits to doctors working longer hours or taking multiple jobs The crisis will also have serious costs on human development indicators 1.2 million more children under age five and 265 000 more infants will die between 2009 and 2015 350 000 more students will not complete primary education in 2015 100 million fewer people will have access to safe drinking water in 2015 because of the crisis History tells us that if we let the recovery slide and allow the crisis to lead to widespread domestic policy failures and institutional breakdowns in poor countries the negative impact on human development outcomes especially on children and women will be disastrous The international financial institutions and international community responded strongly and quickly to the crisis but more is needed to sustain the recovery and regain

the momentum in achieving the Millennium Development Goals MDGs Developing countries will also need to implement significant policy reforms and strengthen institutions to improve the efficiency of service delivery in the face of fiscal constraints Unlike previous crises however this one was not caused by domestic policy failure in developing countries So better development outcomes will also hinge on a rapid global economic recovery that improves export conditions terms of trade and affordable capital flows as well as meeting aid commitments to low income countries Global Monitoring Report 2010 seventh in this annual series is prepared jointly by the World Bank and the International Monetary Fund It provides a development perspective on the global economic crisis and assesses the impact on developing countries their growth poverty reduction and other MDGs Finally it sets out priorities for policy responses both by developing countries and by the international community *Global Monitoring Report 2010* World Bank, International Monetary Fund, 2010-05-04 Global Monitoring Report 2010 The MDGs after the Crisis examines the impact of the worst recession since the Great Depression on poverty and human development outcomes in developing countries Although the recovery is under way the impact of the crisis will be lasting and immeasurable **Millennium Development Goals Progress Report, Lao PDR** Laos, United Nations, 2004 *Select Proceedings of the European Society of International Law, Volume 2, 2008* Hélène Ruiz Fabri, Ruediger Wolfrum, Jana Gogolin, 2010-06-30 This book continues the series *Select Proceedings of the European Society of International Law* containing the proceedings of the Third Biennial Conference organised by ESIL and the Max Planck Institute for Comparative Public Law and International Law in 2008 The conference was entitled International Law in a Heterogeneous World reflecting an idea which is central to the ESIL philosophy Heterogeneity is considered one of the pillars upon which Europe's contribution to international law is built and the subject was considered in a number of panels including such diverse topics as migration the history of international law the rules on warfare and international environmental law **Global Monitoring Report 2009** World Bank, 2009-04-27 A Development Emergency the title of this year's Global Monitoring Report the sixth in an annual series could not be more apt The global economic crisis the most severe since the Great Depression is rapidly turning into a human and development crisis No region is immune The poor countries are especially vulnerable as they have the least cushion to withstand events The crisis coming on the heels of the food and fuel crises poses serious threats to their hard won gains in boosting economic growth and reducing poverty It is pushing millions back into poverty and putting at risk the very survival of many The prospect of reaching the Millennium Development Goals MDGs by 2015 already a cause for serious concern now looks even more distant A global crisis requires a global response The crisis began in the financial markets of developed countries so the first order of business must be to stabilize these markets and counter the recession that the financial turmoil has triggered At the same time strong and urgent actions are needed to counter the impact of the crisis on developing countries and help them restore strong growth while protecting the poor Global Monitoring Report 2009 prepared jointly by the staff of the World Bank and the International

Monetary Fund provides a development perspective on the global economic crisis It assesses the impact on developing countries their growth poverty reduction and other MDGs And it sets out priorities for policy response both by developing countries themselves and by the international community The report also focuses on the ways in which the private sector can be better mobilized in support of development goals especially in the aftermath of the crisis **2nd Millennium**

Development Report published every three years is a comprehensive review providing an authoritative picture of the state of the world s freshwater resources It offers best practices as well as in depth theoretical analyses to help stimulate ideas and actions for better stewardship in the water sector It is the only report of its kind resulting from the collaboration and contributions of the 26 UN agencies commissions program funds secretariats and conventions that have a significant role in addressing global water concerns The news media are full of talk of crises in climate change energy and food and troubled financial markets These crises are linked to each other and to water resources management Unresolved they may lead to increasing political insecurity and conflict Water is required to meet our fundamental needs and rising living standards and to sustain our planet s fragile ecosystems Pressures on the resource come from a growing and mobile population social and cultural change economic development and technological change Adding complexity and risk is climate change with impacts on the resource as well as on the sources of pressure on water The challenges though substantial are not insurmountable The Report shows how some countries have responded Progress in providing drinking water is heartening with the Millennium Development Goal target on track in most regions But other areas remain unaddressed and after decades of inaction the problems in water systems are enormous and will worsen if left unattended Leaders in the water sector can inform decisions outside their domain and manage water resources to achieve agreed socioeconomic objectives and environmental integrity Leaders in government the private sector and civil society determine these objectives and allocate human and financial resources to meet them Recognizing this responsibility they must act now Two volume set 336 *Politics as Usual* Thomas W. Pogge,2013-04-24 Worldwide human lives are rapidly improving Education health care technology and political participation are becoming ever more universal empowering human beings everywhere to enjoy security economic sufficiency equal citizenship and a life in dignity To be sure there are some specially difficult areas disfavoured by climate geography local diseases unenlightened cultures or political tyranny Here progress is slow and there may be set backs But the affluent states and many international organizations are working steadily to extend the blessings of modernity through trade and generous development assistance and it won t be long until the last pockets of severe oppression and poverty are gone Heavily promoted by Western governments and media this comforting view of the world is widely shared at least among the affluent Pogge s new book presents an alternative view Poverty and oppression persist on a massive scale political and

economic inequalities are rising dramatically both intra nationally and globally The affluent states and the international organizations they control knowingly contribute greatly to these evils selfishly promoting rules and policies harmful to the poor while hypocritically pretending to set and promote ambitious development goals Pogge s case studies include the 1 day poverty measurement exercise the cosmetic statistics behind the first Millennium Development Goal the War on Terror and the proposed relaxation of the constraints on humanitarian intervention A powerful moral analysis that shows what Western states would do if they really cared about the values they profess *The United Nations in Latin America* Francis Adams,2010-01-26 Francis Adams examines the United Nations efforts to promote sustainable in Latin America Adams analyzes the development work of various UN institutions and agencies that sponsor economic and social programs in the developing world as well as the UN s various funding initiatives global conferences and institutional goals **National Geographic Family Reference Atlas of the World** National Geographic Society (U.S.),2010 A comprehensive world atlas covering all aspects of the Earth with over 1000 maps and illustrations *Millennium Development Goals* Matthew Clarke,Simon Feeny,2013-09-13 In the year 2000 the international community agreed to a framework to address global poverty This framework known as the Millennium Development Goals was time bound with an end date of 2015 With this end now in sight the international community is focusing on the achievement of these goals However it is also very important that consideration now turns to what will follow the MDGs after 2015 Millennium Development Goals Looking Beyond 2015 provides a critical analysis of the MDGs and discusses a range of issues that must be considered by the international community in determining what poverty alleviation framework might replace the MDGs This reflection is made even more imperative as the poverty landscape has shifted considerably since these original goals were made This book was originally published as a special issue of the Journal of the Asia Pacific Economy **Handbook of International Social Work** Lynne M. Healy,Rosemary J. Link,2012 Global knowledge is increasingly essential for all aspects of social work Today s professionals respond to concerns including permeable borders the upheavals of war displaced workers natural disasters international adoption and human trafficking Everywhere social workers work with service users and colleagues from diverse cultures and countries Globally relevant concepts such as human rights development and inclusion offer new perspectives to enhance policy and practice and facilitate the international exchange of ideas This handbook is the first major reference text to provide a solid foundation of knowledge for students and researchers alike The extensive collection of 73 chapters confirms the integral and necessary nature of international social work knowledge to all areas of practice policy and research Chapters systematically map the key issues organizations competencies training and research needs and ethical guidelines central to international social work practice today emphasizing the linkages among social work development and human rights practice In depth country case studies and policy examples encourage readers to understand how their practice in social work touches on international issues regardless of whether the work is done at home or abroad Representing all

regions of the world a wide range of contributors that are leaders in their fields have put together an exhaustive collection that represents the state of play of international social work today **Least Developed Countries and the WTO** H.

Hawthorne,2013-05-07 A norm of special treatment for LDCs created by the UN has spread to various international organisations including the WTO Within the WTO evidence of the institutionalization of the norm can be found both in the agreements and legal documents and the way in which the LDCs have been treated by other states Helen Hawthorne investigates how norms impact on negotiations in international organisations She shows that few studies of international organisations focus on the role of the weaker states in the organization the majority focus either on the major states or the emerging economies By ignoring the role of the poorer weaker states in the GATT WTO we are ignoring the history of these states in the organisation and do not get a true picture of the organization how it operates in relation to them and their impact on the organisation *Understanding Development* Paul Hopper,2012-02-27 Drawing on a wide range of case studies from across the globe this book explores such areas as health and population growth conflict and security global inequality and poverty fair trade and trade liberalization gender and education foreign aid and debt and sustainability and the environment This issues driven text focuses on the debates that have generated the most interest and passion among practitioners and non practitioners alike Always attentive to the contested and plural nature of the field it makes the case for a genuinely interdisciplinary approach which takes full account of the impact of globalization Publisher **Developing the**

Global South Paulos Milkias,2010 For four decades the UN has attempted to foster development in the countries of the global south The book provides a synopsis of these efforts from the Brandt Commission Report to Boutros Boutros Ghali s Agenda for Development Prof Milkias presents opposing arguments in allotting responsibility for the growing gap between the North and the South and details the Millennium Development Goals and assesses their successes and failures so far He provides suggestions for closing the gap for removing the debt burden that is currently crushing the nations of the South and for relieving the poverty ignorance and disease that plague so much of humanity **Coping with the Collapse of the Old**

Order: Kenneth Hall,Myrtle Chuck-A-Sang,2013-02-19 On July 4 2009 the region celebrated thirty six years as a formal Caribbean Community CARICOM The analyses contained in this publication in the The Integrationist Series all tend to suggest that CARICOM now more than ever needs to transform its experiences over these years into a more structured foundation for maximising the multiplier effects of collective representation and for leveraging CARICOMs diplomatic efforts and resources in a more coordinated and integrated manner This imperative is necessitated by the rapidly changing international environment which has far too often impacted negatively on small developing countries leaving them increasingly vulnerable and marginalized *Africa in Contemporary Perspective* Manuh, Takyiwaa,Sutherland-Addy, Esi,2014-05-08 An important feature of Ghanaian tertiary education is the foundational African Studies Programme which was initiated in the early 1960s Unfortunately hardly any readers exist which bring together a body of knowledge on the

themes issues and debates which inform and animate research and teaching in African Studies particularly on the African continent This becomes even more important when we consider the need for knowledge on Africa that is not Eurocentric or sensationalised but driven from internal understandings of life and prospects in Africa Dominant representations and perceptions of Africa usually depict a continent in crisis Rather than buying into external representations of Africa with its lacks and aspirations for Western modernities we insist that African scholars in particular should be in the forefront of promoting understanding of the pluri lingual overlapping and dense reality of life and developments on the continent to produce relevant and usable knowledge Continuing and renewed interest in Africa s resources including the land mass economy minerals visual arts and performance cultures as well as bio medical knowledge and products by old and new geopolitical players obliges African scholars to transcend disciplinary boundaries and to work with each other to advance knowledge and uses of those resources in the interests of Africa s people
