The Italian Army In North Africa Walter S. Zapotoczny Jr.,2018-08-17 Previously unpublished analysis of why and how the Italians foughtA look at the role the Italian Army played in North Africa as part of the Deutsches Afrika Korps German Afrika Korps In spite of poor leadership the Italian soldier performed well against all odds in North AfricaProfusely illustrated with many rare and unpublished images The German soldier has impressed the world however the Italian Bersagliere soldier has impressed the German soldier Erin Rommel aka The Desert Fox When most

people think of the Italian Army in North Africa during the Second World War they tend to believe that the average Italian soldier offered little resistance to the Allies before surrendering. Many suggest that the Italian Army performed in a cowardly manner during the war; the reality is not so simple. The question remains as to whether the Italians were cowards or victims of circumstance. While the Italian soldier's commitment to the war was not as great as that of his German counterpart, many Italians fought bravely. The Italian Littorio and Ariete Divisions earned Allied admiration at Tobruk, Gazala, and El Alamein. The Italian Army played a significant role as part of the German Afrika Korps and made up a large portion of the Axis combat power in North Africa during 1941 and 1942. In the interest of determining how the Italian Army earned the reputation that it did, it is necessary to analyse why and how the Italians fought.

War, Nation, Memory Keith A. Crawford, Stuart J. Foster, 2007-12-01 The Second World War stands as the most devastating and destructive global conflict in human history. More than 60 nations representing 1.7 billion people or three quarters of the world's population were consumed by its horror. Not surprisingly, therefore, World War II stands as a landmark episode in history education throughout the world and its prominent place in school history textbooks is almost guaranteed. As this book demonstrates, however, the stories that nations choose to tell their young about World War II do not represent a universally accepted truth about events during the war. Rather, wartime narratives contained in school textbooks typically are selected to instil in the young a sense of national pride, common identity, and shared collective memory. To understand this process, *War, Nation, Memory* describes and evaluates school history textbooks from many nations deeply affected by World War II, including China, France, Germany, Japan, USA, and the United Kingdom. It critically examines the very different and complex perspectives offered in many nations and analyses the ways in which textbooks commonly serve as instruments of socialisation and, in some cases, propaganda. Above all, *War, Nation, Memory* demonstrates that far from containing neutral knowledge, history textbooks prove fascinating cultural artefacts, consciously shaped and legitimated by powerful ideological, cultural, and sociopolitical forces dominant in the present.

A Revised History for Advanced Level & Colleges Nassoro Habib Mbwana, 2017-11-10 The book is a response to the suggestions and opinions provided to me by the students on writing a text that could be beneficial for them and other readers. The book covers the period from the fifteenth century to the present, 2014. It includes the development of Europe from mercantilism to a new imperialism, globalization, and a neocolonial situation, and underdevelopment to the less developed countries in the southern hemisphere. It also justifies and revises important areas in the current 2009 syllabus which had been left by other authors in writing history texts for the advanced level. Therefore, the book justifies some areas that are beyond the syllabus but the questions do appear in examinations. The book is directed to be useful for A level and college students, the teachers, and other readers who have an interest with history.
