What They Do With Your Money Stephen Davis,Jon Lukomnik,David Pitt-Watson,2016-05-24 Each year we pay billions in fees to those who run our financial system The money comes from our bank accounts our pensions our borrowing and often we aren t told that the money has been taken These billions may be justified if the finance industry does a good job but as this book shows it too often fails us Financial institutions regularly place their business interests first charging for advice that does nothing to improve performance employing short term buying strategies that are corrosive to building long term value and sometimes even concealing both their practices and their investment strategies from investors In their previous prizewinning book *The New Capitalists* the authors demonstrated how ordinary people are working together to demand accountability from even the most powerful corporations Here they explain how a tyranny of errant expertise naive regulation and a misreading of economics combine to impose a huge stealth tax on our savings and our economies More important the trio lay out an agenda for curtailing the misalignments that allow the financial industry to profit at our expense With our financial future at stake this is a book that analysts economists policy makers and anyone with a retirement nest egg can t afford to ignore Research in Education ,1968 Identification of Probable Automotive Fuels Composition, 1985-2000 Southwest Research Institute,1978 Official News Letter American Farm Bureau Federation,1923
