Questions **A Leader's Destiny** Elias Aboujaoude,2024-05-21 A psychiatrist puts leadership on the couch with a
provocative exploration of its crucial often ignored psychological and personal character foundations Elias Aboujaoude s
distinctive exploration of leadership explains how our cultlike obsession with leadership gives narcissists and sociopaths an
edge and results in leadership failure everywhere we look and how resisting the imperative to rise at all costs leaves many
with an inferiority complex His takedown of the leadership industrial complex pokes a very sharp elbow into an industry
seemingly united in a modern form of alchemy to create leadership gold a waste of time and money Aboujaoude vividly
illustrates since leaders emerge from a unique combination of personal psychological and situational factors that cannot be
easily controlled or manipulated no matter how gifted the executive coach This bracing take on a classic subject provides
new insight into the way psychology aligns with the requirements of effective and happy leadership The result is to empower
us to understand ourselves and step up if we have what it takes to lead or find equally rewarding often superior ways to
achieve fulfillment if we don t The BRICS and the Future of Global Order Oliver Stuenkel,2020-02-03 The transformation
of the BRIC acronym from an investment term into a household name of international politics and into a semi institutionalized
political outfit called BRICS with a capital S is one of the defining developments in international politics in the past decades
While the concept is now commonly used in the general public debate and international media there has not yet been a
comprehensive and scholarly analysis of the history of the BRICS term The BRICS and the Future of Global Order Second
Edition offers a definitive reference history of the BRICS as a term and as an institution a chronological narrative and
analytical account of the BRICS concept from its inception in 2001 to the political grouping it is today In addition it analyzes
what the rise of powers like Brazil Russia India China and South Africa means for the future of global order Will the BRICS

countries seek to establish a parallel system with its own distinctive set of rules institutions and currencies of power rejecting key tenets of liberal internationalism are will they seek to embrace the rules and norms that define today s Western led order
