Temperature Calibration Furnace System HTCFS was developed by Summitec Corporation It is a high precision instrument
providing a constant temperature which can be used to calibrate high temperature thermocouples Incorporating the many
recent technological advances from the fields of optical fiber thermometry material science computer systems interfacing
and process control the engineers at Summitec Corporation have been able to create a system that can reach a steady
operating temperature of 1700 C The precision for the system requires the measurement of temperature to be within 1 C in
two hours and within 2 C in 24 hours As documented the experimental result shows that this system has been able to stay
within 5 C in 5 hours No other systems commercially available have been able to achieve such high temperature precision
