La Folie Maternelle Ordinaire:

La folie maternelle ordinaire Jacques André, Sylvie Dreyfus-Asséo, 2014-10-01 T00:00:00+02:00 L amour maternel est il fou Par exc s ou par d faut ou bien menac par la folie du doute Qu est ce cet amour maternel folie ordinaire et commune auquel nul n chappe car hors de cet apprentissage de l amour l enfant ne saurait devenir un tre humain capable dot d un besoin sexuel nergique et r aliser dans son existence tout ce quoi la pulsion pousse l individu Freud *Beyond Borders* Agnieszka Adamowicz-Pośpiech, Renata Dampc-Jarosz, Andrzej Rabsztyn, 2023-02-07 This trilingual volume focuses on acts of transgressive acting writing in selected texts of European literatures whose authors differ in gender nationality and time frame Thus the contributions collected here consider a double questioning of difference and transgression of norms Both concepts are set in relation to each other in order to be able to embed any transition in cultural social historical contexts The analyses and interpretations of selected texts from German French Polish Russian and ancient literature presented in chronological order show exemplary acts of transgression in different cultures and under changing time circumstances and document aesthetic attempts to revise the existing order and create a new one **The Ethical Seduction of the Analytic Situation** Viviane Chetrit-Vatine, 2018-05-11 According to Jacques Andre the patient s encounter with the analyst is a scene of seduction the seductive statement being that of the fundamental rule or the invitation to address that which is most intimate or personal to a complete stranger But the practice of psychoanalysis can only unfold if there is a strict respect for ethics The words seduction and ethics which at first sight seem mutually exclusive are thus as the author shows at the heart of the analytic perspective The author takes as her starting point an encounter which is not necessarily consensual between Emmanuel Levinas thought and his conception of philosophy as ethics ethics understood as responsibility for the other and that of the psychoanalyst Jean Laplanche who posits the first adult other as a seducer of the young psyche from the outset due to the transmission of enigmatic messages compromised by his or her unconscious The analyst s ethical position is re examined and with it the feminine maternal origins of the human capacity for responsibility for the other Les Hommes naissent libres et égaux...
