## La Crise De L'empire:

Denys Arcand's *Le Déclin de L'empire Américain* and *Les Invasions Barbares* André Loiselle, 2008-01-01 Andr Loiselle presents the first in depth analysis of both Arcand films within the context of Quebec culture Зборник радова Византолошког института Vizantološki institut (Srpska akademija nauka i umetnosti), 1971 *Crises and the Roman Empire* Impact of Empire (Organització). Workshop, 2007 This volume presents the proceedings of the seventh workshop of the international thematic network Impact of Empire which concentrates on the history of the Roman Empire It focuses on the impact that crises had on the development and functioning of the Roman Empire from the Republic to Late Imperial times

, L'Empire ottoman du XVIe au XVIIIe siècle Robert Mantran, 2024-12-11 United by a common interest in the institutions the social life and the commercial activities of the Ottoman empire in its heyday these studies fall into three sections The first concentrates upon Istanbul the heart of the empire the second covers the dealings between the Ottomans and foreign traders amongst whom the Venetians held a prime position Robert Mantran then turns to the Arabic provinces of the empire examining their relations with the central government In particular he looks at Northern Africa the history of which in the Ottoman period remains too little studied and yet for which as for other aspects of Ottoman history there still exists a wealth of unexplored documentary information **The Cult of the Modern** Gavin Murray-Miller, 2017 The Cult of the Modern focuses on nineteenth century France and Algeria and examines the role that ideas of modernity and modernization played in both national and colonial programs during the years of the Second Empire and the early Third Republic Gavin Murray Miller rethinks the subject by examining the idiomatic use of modernity in French cultural and political discourse The Cult of the Modern argues that the modern French republic is a product of nineteenth century colonialism rather than a creation of the Enlightenment or the French Revolution This analysis contests the predominant Parisian and metropolitan contexts that have traditionally framed French modernity studies noting the important role that colonial Algeria and the administration of Muslim subjects played in shaping understandings of modern identity and governance among nineteenth century politicians and intellectuals In synthesizing the narratives of continental France and colonial North Africa Murray Miller proposes a new framework for nineteenth century French political and cultural history bringing into sharp relief the diverse ways in which the French nation was imagined and represented throughout the country's turbulent postrevolutionary history as well as the implications for prevailing understandings of France today THE TEMPLE OF HATSHEPSUT - THE SOLAR COMPLEX Janusz Karkowski, 2003-01-01 *Rabbinisme et Paganisme en Palestine romaine* E. Friedheim, 2006-07-01 This study deals essentially with the knowledge of the Palestinian Rabbis concerning paganism in the days of Mishna and Talmud The Late Professor Saul Lieberman wrote that Many isolated items on idolatry and idol worshippers are scattered all over rabbinic literature It would require a large volume to treat this topic This valuable and exhaustive study proves methodically that the Rabbis had deeper knowledge about Syrian Arabian

Anatolian and Graeco Roman Pagan cults than is commonly believed Clear accessible and displaying considerable scholarship this work will undoubtedly provide an important challenge to both historians archaeologists and scholars of Rabbinic texts Cette tude traite essentiellement du niveau de connaissances des Rabbins de Jud e et de Galil e concernant les cultes pa ens dans le sens le plus large du terme Le Professeur Saul Lieberman affirmait Many isolated items on idolatry and idol worshippers are scattered all over rabbinic literature It would require a large volume to treat this topic Ce travail exhaustif travers l ensemble du corpus talmudique et au regard de la r alit historique propre la Palestine romaine montre m thodiquement que les connaissances des Sages tant sur les divinit s du paganisme que sur des rites syriens arabes anatoliens voire gr co romains taient bien plus vastes et approfondies que ce qu il est commun ment admis aujourd hui par la recherche historique De part sa claret et son accessibilit ce livre int ressera aussi bien les historiens du peuple juif que ceux des religions antiques Les arch ologues les historiens du Levant l poque romaine ainsi que les sp cialistes de la litt rature talmudique y trouveront galemment un vif int r t en vertu de son aspect extr mement novateur

**Universal Salvation in Late Antiquity** Archbishop Michael Bland Simmons,2015-05-26 This study offers an in depth examination of Porphyrian soteriology or the concept of the salvation of the soul in the thought of Porphyry of Tyre whose significance for late antique thought is immense Porphyry s concept of salvation is important for an understanding of those cataclysmic forces not always

theological that helped convert the Roman Empire from paganism to Christianity Porphyry a disciple of Plotinus was the last and greatest anti Christian writer to vehemently attack the Church before the Constantinian revolution His contribution to the pagan Christian debate on universalism can thus shed light on the failure of paganism and the triumph of Christianity in late antiquity In a broader historical and cultural context this study will address some of the issues central to the debate on universalism in which Porphyry was passionately involved and which was becoming increasingly significant during the unprecedented series of economic cultural political and military crises of the third century As the author will argue Porphyry may have failed to find one way of salvation for all humanity he nonetheless arrived a hierarchical soteriology something natural for a Neoplatonist which resulted in an integrative religious and philosophical system His system is examined in the context of other developing ideologies of universalism during a period of unprecedented imperial crises which were used by the emperors as an agent of political and religious unification Christianity finally triumphed over its competitors owing to its being perceived to be the only universal salvation cult that was capable of bringing about this unification In short it won due to its unique universalist soteriology By examining a rival to Christianity s concept of universal salvation this book will be valuable to students and scholars of ancient philosophy patristics church history and late antiquity

**The French Revolution** Georges Lefebvre,1962 In the opening section the author examines Europe and the world on the eve of the revolution describing in detail not only the countries which were immediately affected by the cataclysm in France but also those which awakened slowly to the call of liberty He then presents a vivid narrative of events in France analyzing the series of revolts by the aristocracy the bourgeoisie the towns and the peasantry which set in motion the inexorable course of social economic and political upheaval The forces that propelled the revolution as well as the personalities responsible for day to day decisions during this momentous period are described with great insight From publisher

**The Church in the Age of Feudalism** Friedrich Kempf,1980 *Religious Practices and Christianization of the Late Antique City (4th - 7th cent.)* ,2015-06-24 In Religious Practices and Christianization of the Late Antique City historians archaeologists and historians of religion provide studies of the phenomenon of the Christianization of the Roman Empire within the context of the transformations and eventual decline of the Greco Roman city The eleven papers brought together here aim to describe the possible links between religious but also political economic and social mutations

engendered by Christianity and the evolution of the antique city Combining a multiplicity of sources and analytical approaches this book seeks to measure the impact on the city of the progressive abandonment of traditional cults to the advantage of new Christian religious practices

**The French Second Empire** Roger Price, 2001-11-15 This book is about a major historical figure Napoleon III and a political regime It examines how Louis Napoleon Bonaparte nephew of the first Napoleon was able to secure election as President of the Republic and subsequently to launch a coup d'état to establish a Second Empire It then considers the ways in which power was exercised by the new imperial regime Later apparent stability led Napoleon III to engage in a difficult process of transition towards a more liberal regime but at the point of success the decision was taken to go to war against Prussia which resulted in a catastrophic defeat and the destruction of his regime This is a most thoroughly researched book on the Second Empire which makes a contribution to our knowledge of a vitally important period of French history following the 1848 revolution and the intense mid century crisis
