multinationals and defence economics Individual volumes will have a strong appeal to different markets eg the volume on defence economics for economists various volumes for Asian Studies etc French Global Christie McDonald, Susan Rubin Suleiman, 2010 Recasting French literary history in terms of the cultures and peoples that interacted within and outside of France's national boundaries this volume offers a new way of looking at the history of a national literature along with a truly global and contemporary understanding of language literature and culture The relationship between France's national territory and other regions of the world where French is spoken and written most of them former colonies has long been central to discussions of Francophonie Boldly expanding such discussions to the whole range of French literature the essays in this volume explore spaces mobilities and multiplicities from the Middle Ages to today They rethink literary history not in terms of national boundaries as traditional literary histories have done but in terms of a global paradigm that emphasizes border crossings and encounters with others Contributors offer new ways of reading canonical texts and considering other texts that are not part of the traditional canon By emphasizing diverse conceptions of language text space and nation these essays establish a model approach that remains sensitive to the specificities of time and place and to the theoretical concerns informing the study of national literatures in the twenty first century **France Overseas** Herbert Ingram Priestley, 2018-05-03 Originally published in 1938 Upon restoration of peace in 1814 recovery of colonial prestige became one of the leading affairs of the French state First the Old Colonies were reoccupied then new areas were sought in the Pacific Asia and in Africa This book examines the growth of France overseas in the nineteenth century **Routledge Handbook of Francophone Africa** Tony Chafer, Margaret A. Majumdar, 2023-11-02 The Routledge Handbook of Francophone Africa brings together a multidisciplinary team of international experts to reflect on the history politics societies and cultures of French speaking parts of Africa Consisting of approximately 35% of Africa's territory Francophone Africa is a shifting concept with its roots in French and Belgian colonial rule This handbook develops and problematizes the term with thematic sections covering Colonial and post colonial ties between France and sub Saharan Africa Belgium Belgian colonialism and Africa The Maghreb African Francophones in France Francophone African literature and film Francophone and Anglophone Africa Beyond national boundaries and colonial partners The chapters demonstrate the evolution of Francophone Africa into a multi dimensional construct with both a material and an imagined reality Materially it defines a regional territorial space that coexists with other conceptualisations of African space and borders Conceptually Francophone Africa constitutes a shared linguistic and cultural space within which collective memories are shared not least through their connection to the French imperial imagination Overall the Handbook demonstrates that as global power structures and relations evolve African agency is increasingly assertive in shaping French African relations Bringing this important debate together into a single volume this Handbook will be an essential resource for students and scholars interested in Francophone Africa Revolution Revisited: Emmanuel Macron and the Limits of Political Change in France Susan

Collard,2025-03-04 This book provides timely assessment of the extent to which Emmanuel Macron's declared presidential goal to bring in radical transformation of French politics indeed a revolution albeit a democratic one has been achieved This analysis of his presidency provides a framework for reflection on immobilism in French politics and how enduring transformation has remained much more elusive to most of those who promised it With a wide a range of underlying seemingly intractable and unresolved structural issues dominating French society the book asks whether the young disrupter has succeeded in reforming France where others had failed What can we learn about the processes of political change from analysing Macron's successes and failures in working through his ambitions for France This book will be of key interest to scholars students and followers of French politics studies and society gender studies media studies and more broadly European studies

Black France, White Europe Emily Marker,2022-10-15 Winner of the George Louis Beer Prize Black France White Europe illuminates the deeply entangled history of European integration and African decolonization Emily Marker maps the horizons of belonging in postwar France as leaders contemplated the inclusion of France's old African empire in the new Europe in the making European integration intensified longstanding structural contradictions of French colonial rule in Africa Would Black Africans and Black African Muslims be French If so would they then also be European What would that mean for republican France and united Europe more broadly Marker examines these questions through the lens of youth amid a surprising array of youth and education initiatives to stimulate imperial renewal and European integration from the ground up She explores how education reforms and programs promoting solidarity between French and African youth collided with transnational efforts to make young people in Western Europe feel more European She connects a particular postwar vision for European unity which coded Europe as both white and raceless Christian and secular to crucial decisions about what should be taught in African classrooms and how many scholarships to provide young Africans to study and train in France That vision of Europe also informed French responses to African student activism for racial and religious equality which ultimately turned many young francophone Africans away from France irrevocably Black France White Europe shows that the interconnected history of colonial and European youth initiatives is key to explaining why despite efforts to strengthen ties with its African colonies in the 1940s and 1950s France became more European during those years

Terrorism in Contemporary France Jan Eichler,2023-01-29 This book examines radical Jihad terrorism in contemporary France and sheds light on the vicious circle of violence based on reciprocity Building upon the theoretical heritage of Pierre Bourdieu the book develops a methodology and a concept of the vicious circle of violence in France based on three pillars actors dynamics and effects Discussing the development of global terrorism between the 9/11 attacks and the launch of the European front against global terror in Spain and Great Britain the book goes on to analyze why France has not been attacked during the 2000s and why it in turn became a primary target of terrorist attacks during the 2010s with a special emphasis on

communication theory and the concept of reciprocity Studying these attacks on the international level the book offers insights into violent acts of revenge of the radical home grown jihadists for the French military interventions in four Middle Eastern and North African MENA countries especially Libya and Syria It further investigates the following growing radicalization of the Muslim community on the national level as a reason for terrorist attacks Finally the book sheds light on the reactions from within the French military to these developments before closing with a presentation of the new political context after the 2022 presidential and legislative elections Based on empirical evidence and a theoretical background this book will appeal to students and scholars of political science and international relations as well as policy makers and practitioners interested in a better understanding of terrorism French politics and communication theory *Africa and France* Dominic Richard David Thomas,2013 This stimulating and insightful book reveals how increased control over immigration has changed cultural and social production in theatre literature and even museum construction Dominic Thomas s analysis unravels the complex cultural and political realities of long standing mobility between Africa and Europe Thomas questions the attempt to place strict limits on what it means to be French or European and offers a sense of what must happen to bring about a renewed sense of integration and global Frenchness **Report of the Sixth International Geographical Congress** ,1896 *Revue Des Français. Anné 5 No. 10-anné 10. No. 9. Oct. 1910-nov./dč. 1915* ,1911

Black France Dominic Thomas,2007 Without a doubt one of the most important studies so far completed on literature in French grounded in the experiences of migrants of sub Saharan African origin Alec Hargreaves Florida State University France has always hosted a rich and vibrant black presence within its borders But recent violent events have raised questions about France s treatment of ethnic minorities Challenging the identity politics that have set immigrants against the mainstream Black France explores how black expressive culture has been reformulated as global culture in the multicultural and multinational spaces of France Thomas brings forward questions such as Why is France a privileged site of civilization Who is French Who is an immigrant Who controls the networks of production Black France poses an urgently needed reassessment of the French colonial legacy **Black France / France Noire** Trica Danielle Keaton,2012-06-26 In Black France France Noire scholars activists and novelists address the paradox of race in France the state does not acknowledge race as a meaningful category but experiences of antiblack racism belie claims of color blindness **France and the New Imperialism** Bruno Charbonneau,2016-04-15 The role of French security policy and cooperation in Africa has long been recognized as a critically important factor in African politics and international relations The newest form of security cooperation a trend which merges security and development and which is actively promoted by other major Western powers adds to our understanding of this broader trend in African relations with the industrialized North This book investigates whether French involvement in Africa is really in the interest of Africans or whether French intervention continues to deny African political freedom and to sustain their current social economic and political conditions It illustrates how policies

portrayed as promoting stability and development can in fact be factors of instability and reproductive mechanisms of systems of dependency domination and subordination Providing complex ideas in a clear and pointed manner France and the New Imperialism is a sophisticated understanding of critical security studies **The Impact of Foreign Interventions on Democracy and Human Rights** Ana Magdalena Figueroa,2022-01-28 The Impact of Foreign Interventions on Democracy and Human Rights provides holistic studies exploring the relationship between military and economic interventions and the policies methods intentions and consequences of the various American French and Chinese interventions in the case studies they present
