

## Application

The Facility Explorer SNC Series (F4-SNC) are Ethernet-based, supervisory controllers that connect Building Automation System (BAS) networks to IP networks. The SNC features onboard inputs and outputs for direct control of equipment. This device monitors and controls networks of field-level building automation devices, including HVAC equipment, lighting, security, and fire safety equipment. The SNC has FIPS 140-2 Level 1 Compliance, which is a United States government cybersecurity standard that approves cryptographic modules/algorithms used for encryption.

The F4-SNC25151-04H and F4-SNC25151-04H models have a display where you can view Alarms, Overrides, Equipment Data, and Trends. You can command Equipment Data points. Display settings can be viewed and edited but Controller settings can only be viewed. You can navigate the display using the direction arrows, back, OK, and menu buttons.

The F4-SNC25151-0x/x models have a total of 40 I/O points - with 25 inputs and 15 outputs. The F4-SNC16121-0x models have a total of 28 I/O points - with 16 inputs and

12 outputs. The first two numbers of the product code number represent the number of inputs (SNC25151-0x/x) and the next two numbers represent the number of outputs (SNC25151-0x/x). The SNC offers various integration options.

## Field Bus integrations supported

- BACnet MS/TP

## Ethernet integrations supported

- BACnet/IP

## Physical features

The following figures display the physical features of the SNC25151-0x/x and SNC16121-0x with display models. The accompanying table provides a description of the physical features and a reference to further information where relevant.

- ③ **Note:** The physical features labelled with callouts 9-16 are only available on SNC models with the display.

Younger, 2008      *Because of Sex* Gillian Thomas, 2016-03-08 Meticulously researched and rewarding to read Thomas is a gifted storyteller The New York Times Book Review Best known as a monumental achievement of the civil rights movement the 1964 Civil Rights Act also revolutionized the lives of America s working women Title VII of the law made it illegal to discriminate because of sex But that simple

phrase didn't mean much until ordinary women began using the law to get justice on the job and some took their fights all the way to the Supreme Court. Among them were Ida Phillips, denied an assembly line job because she had a preschool age child; Kim Rawlinson, who fought to become a prison guard; a man's job; Mechelle Vinson, who brought a lawsuit for sexual abuse before sexual harassment even had a name; Ann Hopkins, denied partnership at a Big Eight accounting firm because the men in charge thought she needed a course at charm school; and most recently Peggy Young, UPS truck driver forced to take an unpaid leave while pregnant because she asked for a temporary reprieve from heavy lifting. These unsung heroines' victories and those of the other women profiled in Gillian Thomas' *Because of Sex* dismantled a Mad Men world where women could only hope to play supporting roles where sexual harassment was just the way things are and where pregnancy meant getting a pink slip. Through first person accounts and vivid narrative, *Because of Sex* tells the story of how one law, our highest court, and a few tenacious women changed the American workplace forever. HVAC Arthur A. Bell, 2000. The ultimate
