Face To Face Examples For Home Health:

Geriatric Home-Based Medical Care Jennifer L. Hayashi, Bruce Leff, 2015-12-09 This book is a practical reference for any clinician who has struggled to care for an older adult in a home setting. The volume is written by experts in the field who describe fundamental principles and clinical approaches of geriatric home based care and their application to specific diseases and conditions including delirium, incontinence, falls, and chronic pain and disability. The book also details house calls for special populations from the developmentally disabled to those afflicted with neurologic or psychiatric diseases. The volume explores house calls within the context of the US healthcare system. *Geriatric Home Based Medical Care: Principles and Practice* is a valuable resource for geriatricians, geriatric nurses, primary care physicians, social workers, public health officials, and all medical professions who need tools to provide timely, compassionate, and high quality care for their older adult patients. *Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations for Fiscal Year 2014* United States. Congress. Senate. Committee on Appropriations. Subcommittee on Departments of Labor, Health and Human Services, Education, and Related Agencies, 2014 **PPACA Pulse Check, Serial No. 113-78, August 1, 2013, 113-1 Hearing**, 2014 **Medicare Mismanagement: Oversight of the Federal Government Effort to Recapture Misspent Funds, Serial No. 113-136, May 20, 2014, 113-2 Hrg**, 2014 *Post-Acute and Long-Term Care Medicine* Peter Winn, Pamela A. Fenstemacher, Richard G. Stefanacci, R. Scott DeLong, 2023-07-12 This book addresses current issues surrounding hospital admissions and readmissions and the practice of post acute and long term care (LTC). Now in its fully revised and expanded third edition, it contains the most up to date knowledge and regulations pertinent to practice in Post Acute and Long Term Care Medicine. Post Acute and Long Term Medicine is divided into four main sections. The first section is an introduction to long term care. It includes chapters on home health care, assisted living, and residential care, department of veteran affairs, and nursing facilities, among others. The second section focuses on clinical medicine in post acute and long term care and contains chapters on common clinical conditions, preventing hospital admissions and readmissions, palliative care, weight and nutrition, and wound care. The third section details psychosocial aspects of post acute and long term care. Chapters in this section describe dementia, delirium, depression, ethical and legal issues, and caring for families. The fourth and final section centers on special issues in post acute and long term care. This section focuses on documentation and coding, medication management, and rehabilitation, and maximizing function. The outbreak of COVID 19 has led to two very important new chapters in this section. One chapter discusses challenges and opportunities in post acute long term care that have arisen during the pandemic. Another new chapter talks about the importance of virtual care and telemedicine in post acute and long term care amidst the COVID 19 outbreak. Written by experts in the field, many of whom have worked within AMDA, The Society for Post acute and Long term Care Medicine, to create and disseminate a knowledge base for post acute and LTC, this is a valuable resource for clinicians and educators seeking to maximize the care and living

experience of residents in post acute and long term care settings Post-Acute and Long-Term Medicine Pamela A. Fenstermacher, Peter Winn, 2015-12-12 This book addresses current issues surrounding hospital readmissions and the practice of post acute and long term care LTC Thoroughly updated the Second Edition of this practical pocket guide presents new regulations governing these services and lessens the uncertainty involved in caring for patients in a long term care facility The book is divided into four sections that cover types of care which include community care nursing facility care and teamwork clinical medicine with suggested approaches to common conditions and wound care psychosocial aspects of care which include ethical and legal issues and caring for families and special issues with chapters on documentation coding and medication management As community based care is an area of rapid growth where the elderly are increasingly seeking their medical care new chapters have also been added that describe these programs Written by expert contributors many of whom have worked within the American Medical Directors Association to create and disseminate a knowledge base for post acute and LTC this is a valuable resource for clinicians and educators seeking to maximize the care and living experience of residents in post acute and long term care settings Home Care Nursing Practice Robyn Rice, 2006-01-01 This text covers conceptual information leadership skills and current issues and trends It provides clear and concise information about the best practices and quality improvement for the most common clinical conditions seen in home care Cover **Medicare Program Integrity** United States.
