1. Measure all the dimensions.
2. It is essential information that is provided to create the complete set of dimensions.
3. Check all 4 measurements including plate thickness.
4. There must also be some representative calculations.
5. There must also be the 2 parallel or perpendicular that the distance the positions.
6. Different applications, show all calculations to show correct results.
7. Make results and layout.
8. Use the information of the values below as a guide when measuring the position and the 2nd measurement that is
