Who Faked the "World's Oldest Bible"? David W. Daniels,2021-07-09 If the devil has cooked up a plot against your Bible would you want to know it Conspiracy theories are destroyed by solid evidence Author David W Daniels came to the point where he could no longer ignore the mounting evidence He was schooled in Bible college and seminary to believe that the King James was hopelessly obsolete But the mounting confusion around the new Bible translations left him wondering He already knew how to use modern search techniques to quickly discover relevant evidence He soon learned that the Bible version issue was more than a baseless conspiracy Many new facts had become available shedding light on the history of Bible versions He learned that the scholars who decided over 100 years ago to fix the King James may not have had the best intentions His discovery of Satan s plan to damage God s words is chronicled in a series of books In 2017 his book *Is the World s Oldest Bible a Fake* presented heavy evidence against Codex Sinaiticus the manuscript that scholars claim is the world s oldest Bible This book attempts to answer the next question *Who Faked the World s Oldest Bible* It reads like a mystery novel but over 100 illustrations and more than 300 footnotes gives it the force of a graduate research paper The murky narrative of the discovery and evaluation of the Sinaiticus becomes much clearer with this new book Daniels leaves it up to the reader to decide how this might affect his or her eternal destiny

Subject Guide to Books in Print ,1971 **Human Rights after Hitler** Dan Plesch,2017-04-20 *Human Rights after Hitler* reveals thousands of forgotten US and Allied war crimes prosecutions against Hitler and other Axis war criminals based on a popular movement for justice that stretched from Poland to the Pacific These cases provide a great foundation for twenty first century human rights and accompany the achievements of the Nuremberg trials and postwar conventions They include indictments of perpetrators of the Holocaust made while the death camps were still operating which confounds the conventional wisdom that there was no official Allied response to the Holocaust at the time This history also brings long overdue credit to the United Nations War Crimes Commission UNWCC which operated during and after World War II From the 1940s until a recent lobbying effort by Plesch and colleagues the UNWCC s files were kept out of public view in the UN archives under pressure from the US government The book answers why the commission and its files were closed and reveals that the lost precedents set by these cases have enormous practical utility for prosecuting war

crimes today They cover US and Allied prosecutions of torture including water treatment wartime sexual assault and crimes by foot soldiers who were just following orders Plesch s book will fascinate anyone with an interest in the history of the Second World War as well as provide ground breaking revelations for historians and human rights practitioners alike
