DFID Great Britain: Parliament: House of Commons: Committee of Public Accounts, 2012-02-03 The DFID s transfer programmes deliver cash food and assets such as livestock directly to people living in poverty Transfers can be used to tackle a range of issues such as hunger and malnutrition or access to health and education services in a variety of contexts In 2010 11 the Department spent 192 million on social protection programmes which includes its transfer programmes The evidence heard suggests transfer programmes are effective in targeting aid and ensuring the money goes directly to the poorest and most vulnerable people It is therefore surprising that the use of transfer programmes has not increased The Department only plans to support transfer programmes in 17 of its 28 priority countries It does not have an overall strategy for the use of transfers and its decisions on where to support transfer programmes look reactive The decision as to whether or not to propose a transfer programme is taken by staff working in the country and it is not clear why there are extensive programmes in some countries and none in others The Department does not collect data on all the costs of the transfer programmes it supports and the Department is therefore unable to say whether it is lifting more people out of poverty for every pound spent on transfers compared to other programmes The Department s long term objective is for the governments of recipient countries to take on the responsibility of owning and funding transfers as part of a sustainable social security system However the Department has not been clear about how individual programmes will be sustained

Handbook on Hybrid Organisations David Billis, Colin Rochester, 2020-02-28 Hybrid Organisations that integrate competing organisational principles have become a preferred

means of tackling the complexity of today's societal problems. One familiar set of examples are organisations that combine significant features from market, public and third sector organisations. Many different groundbreaking approaches to hybridity are contained in this Handbook which brings together a collection of empirical studies from an international body of scholars. The chapters analyse and theorise the position of hybrid organisations and have important implications for theory, practice and policy in a context of proliferating hybrid forms of organisation.

Proceedings of the 3rd World Conference on Transport Research, Rotterdam, The Netherlands, April 1977. *Reshaping Our National Parks and Their Guardians* Kathy Mengak, 2012. This biography of the seventh director of the National Park Service brings to life one of the most colorful, powerful and politically astute people to hold this position. George B. Hartzog Jr. served during an exciting and volatile era in American history. Appointed in 1964 by Secretary of the Interior Stewart Udall, he benefited from a rare combination of circumstances that favored his vision, which was congenial with both President Lyndon Johnson's Great Society and Udall's robust environmentalism. Hartzog led the largest expansion of the National Park System in history and developed social programs that gave the Service new complexion. During his nine-year tenure, the system grew by seventy-two units totaling 27 million acres, including not just national parks but historical and archaeological monuments and sites, recreation areas, seashores, riverways, memorials, and cultural units celebrating minority experiences in America. In addition, Hartzog sought to make national parks relevant and responsive to the nation's changing needs. *The Petroleum Economist*, 2005. 石油經濟學 Andrew McAfee, 2024-04-30. 10/2013 Netflix 8 HBO HubSpot 90. **X-kit FET Grade 11 BUSINESS STUDIES**, 2007.
