La Grande Illusion De La Technique:

La grande illusion de la technique Jacques Neiryndck, 2013-10-02 En 1986 paraissait sous la plume de Jacques Neiryndck un essai intitulé Le huitième jour de la création qui devait connaître plusieurs rééditions tant dans sa version française que dans la traduction allemande sous le titre Der göttliche Ingenieur Comme le succès de l'ouvrage ne se démentait pas il a paru nécessaire d'en offrir une édition condensée sous le présent titre La grande illusion de la technique Plusieurs événements voqués comme des hypothèses dans la version originale puisement du contrôle changement climatique effondrement du système soviétique appartiennent maintenant au passé Il semble donc utile de refaire le point Si la thèse centrale de l'ouvrage la montée de l'entropie n'a pas changé les problèmes entropologiques se sont eux multipliés et diversifiés comment faire face la rarefaction des ressources naturelles Comment gérer une technonature de plus en plus complexe et de moins en moins compréhensible Comment cesser d'être les objets passifs d'une évolution technique qui nous entraîne selon une logique qui nous échappe *In Search of La Grande Illusion* Nicholas Macdonald, 2013-11-08 This is an extended analysis of the film from different perspectives The first half is largely a discussion of the cinematic technique with key sequences analyzed shot by shot The second half approaches the film from many other angles including its history the critical reception Renoir's life and career and film theory e.g. film in relation to music A case is made that Renoir's career was inconsistent especially after La Règle du jeu but also during the 1930s And rather than emphasizing the humanist anti-war thrust of La Grande Illusion the film is approached as a work of art that is deeply expressive cinematically French War Films and National Identity Noah McLaughlin, 2010 **Catalog of Copyright Entries. French Film Theory and Criticism Richard Abel, 1993-09-12 These two volumes examine a significant but previously neglected moment in French cultural history the emergence of French film theory and criticism before the essays of André Bazin Richard Abel has devised an organizational scheme of six nearly symmetrical periods that serve to bite into the discursive flow of early French writing on the cinema Each of the periods is discussed in a separate and extensive historical introduction with convincing explications of the various concepts current at the time In each instance Abel goes on to provide a complementary anthology of selected texts in translation Amounting to a portable archive these anthologies make available a rich selection of nearly one hundred and fifty important texts most of them never before published in English
