significance of the Catholic phenomenon in twentieth century secular France and to express something of its extraordinary vitality and interest Each contribution focuses on a specific theme or period crucial to an understanding of the role played by French Catholics and their Church Collectively these studies reveal that Catholics were involved in almost every event of consequence and voiced an opinion on almost every issue Equally the volume offers a collage of insights which reflects the fragmentation of Catholic activity and attitudes as the century progressed Being Catholic in modern France no longer means the espousal of a particular political or social agenda Nor does it necessarily mean regular and traditional religious observance or even strict adherence to the dictates of the Church Modern French Catholicism truly has many mansions

du point de vue socialiste que Jean Jaurès veut raconter au peuple aux ouvriers et aux paysans les vénements qui se sont déroulés de 1789 à la fin du XIX^e siècle. Pour lui, la révolution française a été par indirectement l'avènement du prolétariat et a réalisées les deux conditions essentielles du socialisme : la démocratie et le capitalisme, mais elle a été en fond l'avènement politique de la classe bourgeoise. Mais en quoi l'étude de Jean Jaurès est une histoire socialiste ? L'homme doit travailler pour vivre, il doit transformer la nature et c'est son rapport à la transformation de la nature qui va être la question primordiale et le prisme par lequel l'humanité doit être étudiée. De cette exploitation de la nature va naître une société dans laquelle va merger des rapports sociaux dictés par la coexistence de plusieurs classes sociales : les forces productives. Ce nouveau système ne peut pas s'panouir qu'en renversant les structures politiques qui l'empêchent. La révolution française est née des contradictions entre l'évolution des forces productives, la bourgeoisie et des structures politiques : luttes de la noblesse féodale. Il ne faut pas se mettre à prendre l'histoire socialiste comme une lecture orientée politiquement mais peut-être apperçue comme une interprétation économique de l'histoire. Il s'agit d'un ouvrage complexe. L'histoire du socialisme demande du temps et de la concentration, mais c'est une lecture primordiale et passionnée de la Révolution française. L'Histoire socialiste de 1789 à 1900, sous la direction de Jean Jaurès, se compose de 12 tomes, savoir : Tome 1, Introduction à la Constituante (1789-1791) ; Tome 2, La Legislative (1791-1792) ; Tome 3, La Convention I (1792) ; Tome 4, La Convention II (1793-1794) ; Tome 5, Thermidor et Directoire (1794) ; Tome 6, Consulat et Empire (1799-1815) ; Tome 7, La Restauration (1815-1830) ; Tome 8, Le régime de Louis Philippe (1830-1848) ; Tome 9, La République de 1848 (1848-1852) ; Tome 10, Le Second Empire (1852-1870) ; Tome 11, La Guerre franco-allemande (1870-1871) ; La Commune (1871) ; Tome 12, Conclusion : le Bilan social du XIX^e siècle.

Loin de se retrouver une seule approche monographique, l'étude géographique des populations et du peuplement aborde l'ensemble des composantes et des dynamiques spatiales en lien avec les populations : la trame du peuplement et ses facteurs explicatifs. L'histoire n'en tant qu'un parmi d'autres y compris dans des types d'espaces spécifiques comme les frontières ou les littoraux, les mouvements des populations, toutes les échelles, les mobilités, les flux d'immigration, l'aménagement des territoires, les risques naturels, les modes d'habiter, les dynamiques périurbaines, les mutations dans les espaces ruraux, la métropolisation, la question des inégalités socio-spatiales ou encore des inégalités de genre. Le programme est d'une très grande richesse et permet d'explorer bien des facettes de la géographie des territoires français en mouvement en France comme en outre-mer. Par ailleurs, très présente dans les programmes de collège et de lycée, l'étude de la population et des dynamiques de peuplement en France vient aussi rappeler l'apport essentiel de la géographie à la formation du citoyen, la prise de conscience de ses possibilités d'action dans la société et sur les territoires, mais aussi l'
