This book is intended for researchers, engineers and advanced postgraduate students in the fields of control and electrical engineering, computer science and signal processing as well as mechanical and chemical engineering.

Redfern's Nursing Older People Fiona M. Ross,Ruth Harris,Joanne M. Fitzpatrick,Clare Abley,2023-04-20 Redfern's Nursing Older People provides accessible evidence based information for nurses, care assistants and other health professionals wanting to improve the quality of health and social care for older people. Republished for the first time since 2006, this fifth edition has been comprehensively revised and rewritten by a large team of expert contributors while preserving the person-centred spirit of earlier editions. It applies best evidence in straightforward and practical ways to the demographic, physical, psychological, social and emotional challenges of ageing, with a focus on supporting independence and health maintenance. With new contributions covering emerging challenges such as understanding frailty and the use of digital technology and the themes of diversity, service user perspectives and the impact of the COVID-19 pandemic woven throughout, Redfern's Nursing Older People is essential reading to help nurses shape practice, improve outcomes and promote opportunities for ageing well. Written by a team of 68 specialists and experts drawn from the fields of nursing, social sciences, gerontology and healthcare practice. Covers the latest evidence, policy and nursing practice. Focus on nursing-led solutions for improving activities of daily living, independence and preventing common problems of ageing. Accessible to all with stories, case studies and lived experience to bring material to life. Summaries and learning points support learning.
