**Harun Farocki** Nora M. Alter, 2024-06-25 Harun Farocki was one of the world's most celebrated experimental filmmakers at the time of his death in 2014 In a career spanning over fifty years the German artist produced more than one hundred works including political cinema nonfiction film and video and art installations which have been exhibited globally After his early politically engaged films in Super 8 and 16 mm Farocki spent many years making independent films and commissions for German public television In the last phase of his career he transitioned to creating digital and multichannel installations He also collaborated with the director Christian Petzold on a dozen films In addition to his prolific media making career Farocki was an incisive critic and editor This groundbreaking book is an incisive and comprehensive analysis of Farocki's oeuvre shedding new light on his media experimentation and writings across platforms and venues Nora M Alter examines how Farocki's work investigates film and media images their history nature manipulation changing function and strategic use Focusing on interconnected ideas surrounding labor critique and war she shows how his politically committed art is informed by pedagogical strategies that drive viewers to perceive how the media world they inhabit functions Alter also argues that Farocki's career provides a lens on the history of avant garde and experimental filmmaking amid shifts in materials and exhibition platforms Tracing the

transformations of Farocki's artistic practice and thought this book offers new insight into the body of work of one of the most significant media makers of the late twentieth century Radio News, 1923 Some issues 1943 July 1948 include separately paged and numbered section called Radio electronic engineering edition called Radionics edition in 1943 The Sublimations of Leonardo Da Vinci Raymond Somers Stites, 1970 **The Blank Swan** Elie Ayache, 2010-05-05 October 19th 1987 was a day of huge change for the global finance industry On this day the stock market crashed the Nobel Prize winning Black Scholes formula failed and volatility smiles were born and on this day Elie Ayache began his career on the trading floor of the French Futures and Options Exchange Experts everywhere sought to find a model for this event and ways to simulate it in order to avoid a recurrence in the future but the one thing that struck Elie that day was the belief that what actually happened on 19th October 1987 is simply non reproducible outside 19th October 1987 you cannot reduce it to a chain of causes and effects or even to a random generator that can then be reproduced or represented in a theoretical framework The Blank Swan is Elie's highly original treatise on the financial markets presenting a totally revolutionary rethinking of derivative pricing and technology It is not a diatribe against Nassim Taleb's The Black Swan but criticises the whole background or framework of predictable and unpredictable events white and black swans alike i.e. the very category of prediction In this revolutionary book Elie redefines the components of the technology needed to price and trade derivatives Most importantly and drawing on a long tradition of philosophy of the event from Henri Bergson to Gilles Deleuze to Alain Badiou and on a recent brand of philosophy of contingency embodied by the speculative materialism of Quentin Meillassoux Elie redefines the market itself against the common perceptions of orthodox financial theory general equilibrium theory and the sociology of finance This book will change the way that we think about derivatives and approach the market If anything derivatives should be renamed contingent claims where contingency is now absolute and no longer derivative and the market is just its medium The book also establishes the missing link between quantitative modelling no longer dependent on probability theory but on a novel brand of mathematics which Elie calls the mathematics of price and the reality of the market **National Library of Medicine Current Catalog** National Library of Medicine (U.S.), 1993 **Bluebeard's Castle** Anna Biller, 2023-10-10 When the successful British mystery writer Judith Moore meets Gavin a handsome and charming baron at a birthday party on the Cornish coast his love transforms her from a bitter lonely young woman into a romance heroine overnight After a whirlwind honeymoon in Paris he whisks her away to a secluded Gothic castle But soon she finds herself trapped in a nightmare as her husband's mysterious nature and his alternation between charm and violence become increasingly frightening As Judith battles both internal and external demons including sexual ambivalence psychological self torture gaslighting family neglect alcoholism and domestic abuse she becomes increasingly addicted to her wild beast of a husband Why do women stay in abusive relationships The answer can be found in the tortured mind of the protagonist whose richly layered fantasy life parallels that of the female Gothic romance reader Filled with dark humor and

evocative imagery Bluebeard's Castle is a subversive take on modern romance and Gothic erotica     *Capital* Kenneth Goldsmith, 2015-10-27 Here is a kaleidoscopic assemblage and poetic history of New York an unparalleled and original homage to the city composed entirely of quotations Drawn from a huge array of sources histories memoirs newspaper articles novels government documents emails and organized into interpretive categories that reveal the philosophical architecture of the city Capital is the ne plus ultra of books on the ultimate megalopolis It is also a book of experimental literature that transposes Walter Benjamin's unfinished magnum opus of literary montage on the modern city The Arcades Project from 19th century Paris to 20th century New York bringing the streets to life in categories such as Sex Commodity Downtown Subway and Mapplethorpe Capital is a book designed to fascinate and to fail for can a megalopolis truly be written Can a history no matter how extensive ever be comprehensive Each reading of this book and of New York is a unique and impossible passage     Il perito industriale rivista mensile ,1937     **The National Union Catalog, Pre-1956 Imprints** Library of Congress, American Library Association.
