Hoxby, Kevin Stange, 2020-01-10 How do the benefits of higher education compare with its costs and how does this comparison vary across individuals and institutions These questions are fundamental to quantifying the productivity of the education sector The studies in Productivity in Higher Education use rich and novel administrative data modern econometric methods and careful institutional analysis to explore productivity issues The authors examine the returns to undergraduate education differences in costs by major the productivity of for profit schools the productivity of various types of faculty and of outcomes the effects of online education on the higher education market and the ways in which the productivity of different institutions responds to market forces The analyses recognize five key challenges to assessing productivity in higher education the potential for multiple student outcomes in terms of skills earnings invention and employment the fact that colleges and universities are multiproduct firms that conduct varied activities across many domains the fact that students select which school to attend based in part on their aptitude the difficulty of attributing outcomes to individual institutions when students attend more than one and the possibility that some of the benefits of higher education may arise from the system as a whole rather than from a single institution The findings and the approaches illustrated can facilitate decision making processes in higher education *Higher Education Accountability* Robert Kelchen, 2018-02-27 The first comprehensive overview charting the accountability of higher education As the price tag of higher education continues to rise colleges and universities across the country are under increasing pressure to demonstrate their value Graded on numerous metrics including cost and ability to prepare students for the job market colleges must satisfy requirements from multiple stakeholders State and federal governments demand greater accountability Foundations and private donors as well as today s parents and students approach education with a consumer sensibility How can colleges navigate these pressures while trying to stay true to their missions and values In Higher Education Accountability Robert

Kelchen delivers the first comprehensive overview of how colleges in the United States came to face such overwhelming scrutiny Beginning with the earliest efforts to regulate schools Kelchen reveals the rationale behind accountability and outlines the historical development of how federal and state policies accreditation practices private sector interests and internal requirements have become so important to institutional success and survival With so many diverse and conflicting entities holding colleges responsible for their performance the variety of accountability systems in play can have both intended and unintended consequences Immersed as they are in current debates about how best to respond to these pressures faculty and administrators will welcome this up to date and timely account which offers not only a look at current practices but also an examination of the future of accountability in American higher education Education Management and Management Science Dawei Zheng,2015-07-28 This proceedings volume contains selected papers presented at the 2014 International Conference on Education Management and Management Science ICEMMS 2014 held August 7 8 2014 in Tianjin China The objective of ICEMMS2014 is to provide a platform for researchers engineers academicians as well as industrial professionals from all over the world
