COMPARING THE 2 TYPES OF IELTS TEST

---

[ieltsadvantage.com](http://ieltsadvantage.com)

Academic is for people hoping to go to university or get certain types of jobs, such as medical professionals.

Listening and Speaking are exactly the same for both Academic and GT.

Reading contains the same types of questions for both Academic and GT, but the reading texts are different.

Academic Writing consists of Task 1 and Task 2. Task 1 asks you to write a report on a graph, chart, process or map.

GT is for people hoping to migrate to an English-speaking country.

You should prepare for Speaking and Listening in the same way.

Academic texts are on academic topics and GT texts are relevant to everyday life in an English-speaking country.

Task 1 GT asks you to write a letter to an English-speaking person.

Task 2 is the same for Academic and GT.

be recovered from cells and subjected to an initial identification Subsequent chapters characterize the choline containing phospholipids including the sphingolipids the non choline containing phospholipids and finally the so called minor phospholipids The latter compounds which act as agonists or lipid chemical mediators on cells form a vanguard of a new category of biologically active substances and have set the study of cellular phospholipids on a new and exiting course Most importantly this book provides a basis for further inquiry on these complicated molecules showing that although the compounds are unique with care and understanding they can be studied with ease
