Canonicity, Postcoloniality, and Power James Nyachae Michira, 2007 *The Economic Review* ,1995 Ethnographic Contributions to the Study of Endangered Languages Tania Granadillo, Heidi A. Orcutt-Gachiri, 2022-08-23

It is a feature of the twenty first century that world languages are displacing local languages at an alarming rate transforming social relations and complicating cultural transmission in the process This language shift the gradual abandonment of minority languages in favor of national or international languages is often in response to inequalities in power signaling a pressure to conform to the political and economic structures represented by the newly dominant languages In its most extreme form language shift can result in language death and thus the permanent loss of traditional knowledge and lifeways To combat this indigenous and scholarly communities around the world have undertaken various efforts from archiving and lexicography to the creation of educational and cultural programs What works in one community however may not work in another Indeed while the causes of language endangerment may be familiar the responses to it depend on highly specific local conditions and opportunities In keeping with this premise the editors of this volume insist that to understand language endangerment researchers and communities must come to understand what is happening to the speakers not just what is happening to the language The eleven case studies assembled here strive to fill a gap in the study of endangered languages by providing much needed sociohistorical and ethnographic context and thus connecting specific language phenomena to larger national and international issues The goal is to provide theoretical and methodological tools for researchers and organizers to best address the specific needs of communities facing language endangerment The case studies here span regions as diverse as Kenya Siberia Papua New Guinea Mexico Venezuela the United States and Germany The volume includes a foreword by linguistic anthropologist Jane Hill and an afterword by poet and linguist Ofelia Zepeda
