

Question	Answer	Mark	Comments
----------	--------	------	----------

6(a)	2.5×12 or 30 and 7.5×7 or 52.5 and $12.5 (\times 1)$ or 95	M1	allow one incorrect midpoint or $[2, 3] \times 12$ and $[7, 8] \times 7$ and $[12, 13] (\times 1)$ ignore $t \geq 15$ row
	$\frac{\text{their } 30 + \text{their } 52.5 + \text{their } 12.5}{12 + 7 + 1}$ or $95 + 20$	M1dep	$t \geq 15$ product must be 0 if seen condone bracket error seen eg $30 + 52.5 + 12.5 + 20$
	4.75	A1	accept 4.8 or 5 if full working shown using correct midpoints
	Additional Guidance		
	Two correct from 30, 52.5 and 12.5 implies the first mark and could be used to score up to M2		M1
	Midpoints used in the ranges [2, 3], [7, 8] and [12, 13] must be seen eg 2.5×12 and 7×7 and $12 (\times 1)$ or 3×12 and 7×7 and $13 (\times 1)$ NB These could be used to score up to M2		M1
	Correct products seen in the table but a different method shown in the working lines eg $20 + 4 = 5$		M0

6(b)	Lower than part (a)	B1	
	Additional Guidance

Maths Gcse Answers November 2013:

Parliamentary Debates (Hansard). Great Britain. Parliament. House of Commons,2014 **Educating Tomorrow's Engineers** Great Britain: Parliament: House of Commons: Science and Technology Committee,2013-02-08 In the UK we teach young people to become computer users and consumers rather than programmers and software engineers This is creating a chronic skills gap in ICT We need around 82 000 engineers and technicians just to deal with retirements up to 2016 and 830 000 SET professionals by 2020 On the plus side the Government s proposal to include computer science as a fourth science option to count towards the EBac is welcomed The Committee also welcomes the EBac s focus on attainment of mathematics and science GCSEs but is concerned that subjects such as Design and Technology D T might be marginalised A Technical Baccalaureate TechBac is being designed but if it is to be a success schools should be incentivised to focus on the TechBac by making it equivalent to the EBac Reforms to vocational education following the Wolf Review meant that Level 2 of the Engineering Diploma a qualification highly regarded would count as equivalent to one GCSE despite requiring curriculum time and effort equivalent to several GCSEs The Engineering Diploma however is currently being redesigned as four separate qualifications The Committee also expressed concerns over the Department for Education s DfE lack of clarity on its research budget and use of evidence in decision making The DfE needs to place greater focus on gathering evidence before changes to qualifications are made and must leave sufficient time for evidence to be gathered on the effectiveness of policies before introducing further change The possibility of gathering evidence from randomised controlled trials RCTs should be seriously considered GCSE Mathematics for AQA Foundation Student Book Karen Morrison,Julia Smith,Pauline McLean,Nick Asker,Rachael Horsman,2015-04-30 Created specifically for the AQA GCSE mathematics foundation tier specification for first teaching from 2015 this student book provides full coverage of the qualification With a strong focus on developing problem solving skills reasoning and fluency it helps students understand concepts apply techniques solve problems reason interpret and communicate mathematically **Teaching STEM in the Secondary School** Frank Banks,David Barlex,2014-07-17 The skills knowledge and understanding of the subjects involved in STEM Science Technology Engineering and Mathematics are vital for all young people in an increasingly science and technology driven society This book looks at the purpose and pedagogy of STEM teaching and explores the ways in which STEM subjects can interact in the curriculum to enhance student understanding achievement and motivation By reaching outside their own classroom teachers can collaborate across subjects to enrich learning and help students relate school science technology and maths to the wider world Packed with ideas and practical details for teachers of STEM subjects this book considers what the STEM subjects contribute separately to the curriculum and how they relate to each other in the wider education of secondary school students describes and evaluates different curriculum models for STEM suggests ways in which a critical approach to the pedagogy of the classroom laboratory and workshop can support STEM for all students addresses the practicalities of

introducing organising and sustaining STEM related activities in the secondary school looks to ways schools can manage and sustain STEM approaches in the long term This timely new text is essential reading for trainee and practising teachers who wish to make the learning of Science Technology Engineering and Mathematics an interesting motivating and exciting experience for their students Independent Schools Yearbook 2012-2013 none,2013-06-20 The highly respected book of reference of sought after Independent Schools in membership of the Independent Schools Council s Associations HMC GSA The Society of Heads IAPS ISA and COBIS GCSE Mathematics for Edexcel Foundation Student Book Karen Morrison,Julia Smith,Pauline McLean,Rachael Horsman,Nick Asker,2015-05-21 A new series of bespoke full coverage resources developed for the 2015 GCSE Mathematics qualifications Endorsed for the Edexcel GCSE Mathematics Foundation tier specification for first teaching from 2015 this Student Book provides full coverage of the new GCSE Mathematics qualification With a strong focus on developing problem solving skills reasoning and fluency it helps students understand concepts apply techniques solve problems reason interpret and communicate mathematically Written by experienced teachers it also includes a solid breadth and depth of quality questions set in a variety of contexts GCSE Mathematics Online an enhanced digital resource incorporating progression tracking is also available as well as a free Teacher s Resource Problem solving Books and Homework Books The Parliamentary Debates (Hansard). Great Britain. Parliament. House of Lords,2014 *Technology and Testing* Fritz Drasgow,2015-08-20 From early answer sheets filled in with number 2 pencils to tests administered by mainframe computers to assessments wholly constructed by computers it is clear that technology is changing the field of educational and psychological measurement The numerous and rapid advances have immediate impact on test creators assessment professionals and those who implement and analyze assessments This comprehensive new volume brings together leading experts on the issues posed by technological applications in testing with chapters on game based assessment testing with simulations video assessment computerized test development large scale test delivery model choice validity and error issues Including an overview of existing literature and ground breaking research each chapter considers the technological practical and ethical considerations of this rapidly changing area Ideal for researchers and professionals in testing and assessment Technology and Testing provides a critical and in depth look at one of the most pressing topics in educational testing today The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license 6 BPP Learning Media,2012-12-01 A Core Study Text for the ATT Qualification Teaching Adult Numeracy: Principles & Practice Griffiths, Graham,Stone, Rachel,2013-09-01 This book offers friendly guidance on how to work with adult learners to develop their numeracy and mathematics skills It brings together current research and practice on teaching adult numeracy into one handy volume and covers the major issues faced by teachers of adult numeracy such as current policy perspectives and implications for teaching practice There are reflective tasks throughout which encourage you to develop and apply your

theoretical knowledge to your own experiences Key features include Reviews of existing policy and research and implications for practice Reflective tasks with commentary encouraging you to develop and apply your knowledge Case studies of real student experiences Practical activities and ideas to support the planning teaching and assessment of adult numeracy Drawing on the substantial experience of the contributors who have a wealth of experience as practitioners and researchers in the field this book is an essential resource for trainee and practising teachers of adult numeracy and mathematics It is also an ideal textbook to support teacher training courses leading to a subject specific qualification in teaching numeracy to adults Contributors Jackie Ashton John Barton Carolyn Brooks Martyn Edwards Janette Gibney David Holloway David Kaye Beth Kelly Barbara Newmarch Helen Oughton David Prinn Diana Spurr Rebecca Woolley This is a quite unique book about teaching adult numeracy which will be invaluable to the many practitioners in this field The chapters contributed by a group of experienced and successful lecturers and practitioners include all aspects of this field from methods of teaching specific mathematical topics to more general explorations of dyscalculia and emotional factors in adult learners Each chapter includes research findings and thoughtful presentation of ideas with practical ideas for teaching and tasks for the reader This is a market which has not been served well in the past so it is good to see the gap filled at last Margaret Brown Emeritus Professor of Mathematics Education King s College London UK The editors of this book set out to produce a text that would support teacher education programmes for adult numeracy and their book does that and more The content covers different types of learners different settings different understandings of what numeracy actually is and ranges from commentary on research through case studies to how to hints and tips for teaching Chapters 7 on provoking mathematical thinking and 8 attitudes beliefs and teaching should be a required read for any adult numeracy teacher The book would be at home on any numeracy teacher s desk and would make an excellent set text for numeracy teacher training courses Carol Randall course coordinator for numeracy in the department of Lifelong Learning Teacher Education University of Greenwich UK This book is a welcome addition to the growing literature on adult numeracy It should be essential reading for trainee and practising adult numeracy educators It brings together relevant research and professional wisdom on a wide variety of aspects of adult numeracy teaching and learning in an accessible way with well focussed tasks for readers to extend their knowledge and understanding While the book is born out of UK concerns and issues it is also relevant to international readers Highly recommended Professor Diana Coben PhD Director National Centre of Literacy Numeracy for Adults University of Waikato New Zealand and Hon Trustee Adults Learning Mathematics A Research Forum ALM www.alm-online.net *Fleeced!* David Craig, Matthew Elliot, 2013-07-25 Over the past decade some 3 trillion equivalent to 50 000 for every person in Britain has been taken from us by the ruling elites Half was wasted in a splurge of poorly managed public spending in the boom while the other half evaporated in the bust siphoned off by city bonuses vaporised by a collapse in pension savings and extorted to bail out the banking sector In their explosive new book David Craig and Matthew Elliott trace where the money has gone and

who has become richer as a result They name and shame the guilty the incompetent bureaucrats that fail to deliver the services the taxpayer deserves the multitude of ineffective regulators and watchdogs the politicians that have betrayed our democracy and enriched themselves and the self serving and arrogant city bankers Moreover they calculate the enormous debt that awaits the British taxpayer as a result of our rulers avarice and economic mismanagement Fleeced charts the greatest impoverishment and tax swindle of the public in British history Celebrating Life Customs around the World Victoria R. Williams,2016-11-21 This book documents hundreds of customs and traditions practiced in countries outside of the United States showcasing the diversity of birth coming of age and death celebrations worldwide From the beginning of our lives to the end all of humanity celebrates life s milestones through traditions and unique customs In the United States we have specific events like baby showers rites of passage such as Bat and Bar Mitzvahs and sweet 16 birthday parties and sober end of life traditions like obituaries and funeral services that honor those who have died But what kinds of customs and traditions are practiced in other countries How do people in other cultures welcome babies prepare to enter into adulthood and commemorate the end of the lives of loved ones This three volume encyclopedia covers more than 300 birth life and death customs with the books content organized chronologically by life stage Volume 1 focuses on birth and childhood customs Volume 2 documents adolescent and early adulthood customs and Volume 3 looks at aging and death customs The entries in the first volume examine pre birth traditions such as baby showers and other gift giving events and post birth customs such as naming ceremonies child rearing practices and traditions performed to ward off evil or promote good health The second volume contains information about rites of passage as children become adults including indigenous initiations marriage customs and religious ceremonies The final volume concludes with coverage on customs associated with aging and death such as retirement celebrations elaborate funeral processions and the creation of fantasy coffins The set features beautiful color inserts that illustrate examples of celebrations and ceremonies and includes an appendix of excerpts from primary documents that include legislation on government accepted names wedding vows and maternity paternity leave regulations **The Times Index** ,2007 Indexes the Times and its supplements *Revision for Maths GCSE* Robert Solomon,1998 *Gcse Maths Workbook Answers Foundation* CGP Books,Richard Parsons,2006-11-01 GCSE Maths Workbook with answers and online edition Foundation *New Grade 9-1 GCSE Maths Edexcel 10-Minute Tests - Higher (includes Answers)* CGP Books,2018-10-04 *Edexcel GCSE Mathematics* Heinemann (Firm),2007*
