Matric June 2013 Question Papers:

Unsaturated Soils: Research & Applications Adrian R. Russell, 2020-09-23 This book contains the contributions to the Second European Conference on Unsaturated Soils E UNSAT 2012 held in Napoli Italy in June 2012 and includes more than one hundred papers addressing three thematic areas experimental modelling and engineering

Public Examinations Examined Thomas Kellaghan, Vincent Greaney, 2019-11-19 High stakes public examinations exert a dominant influence in most education systems They affect both teacher and student behavior especially at the middle and upper levels of secondary education The content of past examinations tends to dictate what is taught and how it is taught and more important what is learned and how it is learned By changing aspects of these examinations especially their content and format education systems can have a strong positive impact on teacher behavior and student learning help raise student achievement levels and better prepare students for tertiary level education and for employment Examination agencies many of which have followed the same procedures over decades can learn from the successes and failures of other systems This book addresses current issues related to the development administration scoring and usage of these high stakes public examinations identifying key issues and problems related to examinations in many emerging market economies as well as in advanced economies The book's primary audience consists of public examination officials on national regional and state examination boards but the book should also be of interest to senior education policy makers concerned with certification and learning achievement standards to academics and researchers interested in educational assessment to governmental and education agencies responsible for student selection and to professionals at development organizations This extremely well written and comprehensive book offers a timely review of the diversity of public examination practices worldwide of the tensions between examinations and learning and of the technical expertise involved in the creation of valid reliable and fair assessments It reminds us that as the diploma disease takes hold with an ever greater intensity at every stage of education worldwide and the commercial business of testing flourishes those concerned with educational quality and meaningful learning must be on guard to prevent the assessment tail wagging the educational dog Angela W Little Professor Emerita Institute of Education University College London This book is very well structured and written and draws on the authors remarkable global knowledge across countries and histories It will be a great asset both to administrators responsible for examinations and to academics and other professionals who seek to understand the nature and impact of examinations of different types and in different settings Mark Bray UNESCO Chair Professor of Comparative Education University of Hong Kong and former Director UNESCO International Institute for Educational Planning I am sure that Public Examinations Examined which thoroughly analyzes the practice of public examinations in different countries and makes profound and well grounded conclusions will arouse very great interest and will serve to further improve public examinations Victor Bolotov Distinguished Professor Higher School of Economics National Research University Moscow member Russian Academy of Education and

China's New United Front Work in Hong Kong Sonny Shiu-Hing Lo, Steven Chung-Fun Hung, Jeff Hai-Chi Loo, 2019-07-15 This book explores the dynamics of China's new united front work in Hong Kong Mainland Chinese penetrative politics can be seen in the activities of local pro Beijing political parties clans and neighborhood associations labor unions women and media organizations district federations and some religious groups However united front work in the educational and youth sectors of civil society has encountered strong resistance because many Hong Kong people are post materialistic and uphold their core values of human rights the rule of law and transparency China's new united front work in Hong Kong has been influenced by its domestic turn toward hard authoritarianism making Beijing see Hong Kong's democratic activists and radicals as political enemies Hong Kong's one country two systems is drifting toward one country two mixed systems with some degree of convergence Yet Taiwan and some foreign countries have seen China's united front work as politically destabilizing and penetrative This book will be of use to scholars journalists and observers in other countries seeking to reckon with Chinese influence

Rethinking Public Strategy Sean Lusk, Nick Birks, 2014-07-23 Strategy is vital to effective and efficient public service delivery as well as successful governance and leadership This new text provides a concise yet systematic overview of the achievements downfalls and complexities of public strategy in today's

globalized and often market driven world It describes the place of strategy in civic societies whose citizens are more interconnected and vocal than ever It shows that successful strategic planning goes well beyond problem solving to developing adaptable plans that can evolve as requirements and circumstances change And it explains why muddling through simply won't work Emphasizing the importance of applying a variety of techniques to the process of strategy creation Rethinking Public Strategy reassesses the key factors that can deliver significant improvements in public services and build public value It looks at why public strategy is distinctive as well as the principles it has in common with the corporate domain This text includes numerous case studies from around the globe from South Africa to Singapore the USA to Germany and from China to the Czech Republic that ground the exposition in real experience Based on state of the art research by two expert practitioners in the field it offers an essential guide to the art of strategy in the contemporary public sector and encourages readers to evaluate critically the various approaches to strategy
