

Pump Up the Volume!

Volume

Volume is how much space an object takes up. The beaker on the left measures the volume of water in milliliters (mL). The beaker on the right measures the volume of an object with an irregular shape plus the volume of the water. To find the volume of just the orange, you must use subtraction:

$$\left\{ \begin{array}{l} \text{volume of water and orange} \\ - \text{volume of water} \\ \hline \text{volume of orange} \end{array} \right\}$$
A diagram illustrating the subtraction process. On the left, a large purple curly brace groups the text. In the center, the text shows 'volume of water and orange' followed by a minus sign and 'volume of water', with a horizontal line underneath. Below the line is 'volume of orange'. To the right of the text is a small diagram showing a beaker with water and an orange object, a beaker with water, and a small orange object below it. A large purple curly brace is on the far right, grouping the entire equation and diagram.
