Great features at your fingertips

Multi-Column Modifiers

Reduce ordering time with our fast, simple, and customizable multi-column modifiers. Every option for an item can be found in one modifier window. No need to click from screen to screen or search for buttons on different menus!

Labor Scheduling

The advanced Labor Scheduling feature allows management to schedule staff for multiple jobs by pay period. You can schedule an employee's shift, enter their vacations, and record days off. Graphical colored bars show when employees are not available for shifts. Schedules can be printed in the office and posted by job code, making it very easy to see everyone's shifts. Employees can also print their own schedule from any POS terminal to the local receipt printer. Hours and gross pay are accumulated so management can forecast what the labor cost will be for that scheduled period.

You need it customized?

Start with a blank sheet of paper, then draw out how you want your screens designed. Future POS is that flexible! Notice each screen layout pictured here is different, because the order entry screen is totally flexible and configurable to your needs. Your menu screen can be programmed to generate the most efficient layout for your type of business, as well as reduce server training time. Screens can be created for different staff (bartenders, servers, managers), while buttons can be created in various sizes, colors, fonts, with logos, graphics bitmaps or plain text.

Future POS software fits any restaurant application from fine dining, casual, pizza delivery, quick service, pool hall, cafeteria, and more. We strongly urge you to compare our ability to customize menus with the competition.

America, the Owner's Manual Bob Graham,Chris Hand,2016-07-15 In 2016 Americans fed up with the political process vented that frustration with their votes Republicans nominated for president a wealthy businessman and former reality show host best known on the campaign trail for his sharp rhetoric against immigration and foreign trade Democrats nearly selected a self described socialist who ran on a populist platform against the influence of big money in politics While it is not surprising that Americans would channel their frustrations into votes for contenders who pledge to end business as usual the truth is that we don t have to pin our hopes for greater participation on any one candidate All of us have a say if we learn master and practice the skills of effective citizenship One of the biggest roadblocks to participation in democracy is the perception that privileged citizens and special interests command the levers of power and that everyday Americans can t fight City Hall That perception is undoubtedly why a 2015 Pew Charitable Trusts survey found that 74 percent of those Americans surveyed believed that most elected officials didn t care what people like them thought Graham and Hand intend to change that conventional wisdom by showing citizens how to flex their citizenship muscles They describe effective citizenship skills and provide tips from civic experts Even more importantly they offer numerous examples of everyday Americans who have used their skills to make democracy respond The reader will see themselves in these examples of citizens who chose to be victorious participants rather than tranquil spectators in the arena of democracy By the end of the book you will have new confidence that citizen participation is the lifeblood of America and will be ready to make governments work for you not the other way around Resources in Education ,1990 **Departments of Treasury, and Post Office, and Executive Office of the President Appropriations for 1967** United States.
