Futurevision Richard Watson, Oliver Freeman, 2012-10-29 The future is not what it used to be In this volatile era with the world changing rapidly people are more curious than ever to know what lies ahead Will relentless consumerism end up destroying our planet Or can science and technology allow us to innovate our way out of trouble Perhaps a greater social consciousness and community based living will take over or conversely the competition for limited resources may result in everyone fighting for themselves Drawing on these four possible futures Richard Watson and Oliver Freeman invite us to examine critically the risks and opportunities to come They discuss the key factors trends critical uncertainties and wildcards that will shape the future guiding us to a greater awareness of long term problems and possible solutions and empowering us not only to adapt to what might happen but also to shape our future and to generate change It s impossible to know for certain what the future holds but we can remove some of its surprises by engaging in a meaningful debate about the choices we face now This book shows us how **FUTUREVISION RICHARD WATSON AND OLIVER. Improbable War Christopher Coker, 2015 A prescient analysis of the likelihood of a US China conflict and how it might be avoided *Leadership 2050* Matthew Sowcik, Anthony C. Andenoro, Mindy McNutt, Susan Elaine Murphy, 2015-07-24 What kind of leaders will the world need over the next thirty five years How will our knowledge of leadership leadership development and leadership education change Leadership 2050 examines the issues drivers and contexts that will most likely influence leaders in the coming decades *Future War* Christopher Coker, 2015-11-12 Will tomorrow s wars be dominated by autonomous drones land robots and warriors wired into a cybernetic network which can read their thoughts Will war be

fought with greater or lesser humanity Will it be played out in cyberspace and further afield in Low Earth Orbit Or will it be fought more intensely still in the sprawling cities of the developing world the grim black holes of social exclusion on our increasingly unequal planet Will the Great Powers reinvent conflict between themselves or is war destined to become much smaller both in terms of its actors and the beliefs for which they will be willing to kill In this illuminating new book Christopher Coker takes us on an incredible journey into the future of warfare Focusing on contemporary trends that are changing the nature and dynamics of armed conflict he shows how conflict will continue to evolve in ways that are unlikely to render our century any less bloody than the last With insights from philosophy cutting edge scientific research and popular culture **Future War** is a compelling and thought provoking meditation on the shape of war to come **Things Fall Apart?** Michael Paget-Wilkes, 2020-05-29 This book calls for a major paradigm shift in the church's thinking and practice if the church is to engage with the upcoming generations of the third decade of this fast changing twenty first century Just as the church has had to adapt to a changing context in the past it now needs to engage seriously with this post enlightenment post human techno centric age of artificial intelligence However the church also needs to recall its counter cultural prophetic role following Elijah Jeremiah Amos Jesus and Paul challenging society as it faces complex dilemmas raised by technology driven development in these unprecedented times The church will have to acknowledge unaddressed weaknesses in the past of identifying with established power rather than vulnerability and the marginalized of depending on a hierarchical ministerial order at the expense of the ministry of every believer of acquiescing to materialist anthropocentric and consumerist growth as an undisputable norm This book develops the vision of a church engaged in the mission of God of welcoming technological development but with an eye on kingdom values of promoting innovation so long as it does not result in a growth of inequality or at the expense of the environment of pointing towards a humanity that deepens its relationships with its Creator its fellow humans and its environment The author calls on grassroots believers to reflect and act within their local communities as inspired and empowered daughters and sons of God in the knowledge that following Jesus Christ provides a radical new paradigm for living learning and leading in and through these times of epochal change **Transforming Warriors** Peter Haldén, Peter Jackson, 2016-05-12 This volume offers an interdisciplinary study of how different cultures have sought to transform individuals into warriors War changes people however a less explored question is how different societies want people to change as they are turned into warriors When societies go to war they recognize that a boundary is being crossed The participants are expected to do things that are otherwise prohibited or at least governed by different rules This edited volume analyses how different cultures have conceptualized the transformations of an individual passing from a peacetime to a wartime existence to become an active warrior Despite their differences all societies grapple with the same question how much of the individual's peace self should be and can be retained in the state of war The book explores cases such as the Nordic berserkers the Japanese samurai and European knights as well as modern soldiers in Germany Liberia

and Sweden It shows that archaic and modern societies are more similar than we usually think both kinds of societies use myths symbols and rituals to create warriors Thus this volume seeks to redefine theories of modernization and secularization It shows that military organizations need to take myths symbols and rituals seriously in order to create effective units This book will be of much interest to students of military studies war studies sociology religion and international relations in general Spirit of Adventure Wayne Enright,2019-11-05 When the Spirit of Adventure Calls to our Heart we must go This quote written in memory of Mark Auricht who died on Mt Everest in 2001 reminds us of our enduring connection with nature and the magnetic attraction of adventure It not only enlivens our soul but also has the power to draw from within us a strength courage resilience and passion that for some lies dormant until awakened Beyond the story of triumph and tragedy in the Himalayan landscape this book is also about the journey that takes place within us when we explore the limits of our self imposed boundaries to find the hidden treasures of our heart As the world enters a time of unprecedented change we must evolve new ways of thinking living learning and leading that will help us to navigate the challenging terrain of this new frontier May this heart felt tribute to the enduring spirit of Mark Auricht serve as an inspiration and a compass for future leaders adventurous souls and explorers of human potential **Principled Persuasion in Employee Communication**

Mike Churchman,2016-10-04 Principled Persuasion in Employee Communication highlights a new but significant dilemma for organisational leaders Will they continue on the same track that since the nineteenth century has led them to exert increasing control over their employees Or will they take another path one that leads towards a new type of working environment where the culture encourages freedom of communication and movement This book argues for an approach to employee communication that sets out to liberate employees from the stifling constraints that organisations continue to impose on them Principled Persuasion is so called because it uses persuasive techniques based on clear principles to create new forward looking organisational cultures It sets out to increase employee happiness and minimise the harms done to employees at work It grounds itself on a strong ethical base composed of fundamental universal principles It introduces a new approach to the use of language not only calling for more clarity and meaning in organisational communication but also for a more conscious use of rhetorical techniques to change vocabulary metaphors and internal dialogue for the better Make no mistake most organisations have totally underrated the strategic importance of employee communication Principled Persuaders understand that the key to dealing with the unpredictable events about to unfold in the twenty first century will be a new way of communicating with the workforce The flexibility adaptability and innovation that will be needed to survive and prosper in coming decades can only be achieved by liberating employees not imprisoning them further in established systems and processes Lifelong Action Learning and Research ,2015-01-01 This tribute to Ortrun Zuber Skerritt is a celebratory Festschrift of her learning research action packed life Colleagues around the world reflect on their own learning research and professional development with and through Ortrun in action learning and action research ALAR Four Parts

Power Reinoud Bosch, 2021-12-26. Power plays a central role in business and management. But what is power exactly and what are key elements of this concept? Defining power as relative ability, this book discusses structures of power: individual power, the exercise of power, strategy and collective power. While discussing these key components, ideas of important thinkers about power from Plato to Foucault, Weber to Lukes, Machiavelli to Kahneman, Sun to Kotter and Barnard to Clegg are discussed and interpretively categorized into a toolbox of conceptual elements, what Blumer referred to as sensitizing concepts. This toolbox of sensitizing concepts allows the selection of those elements of the concept of power that provide the most constructive and effective practical understanding in particular situations. The core message behind the discussion is that knowledge of key components of the concept of power is empowering. It is empowering to learn about aspects of structures of power: individual power, the exercise of power, strategy and collective power. Understanding such conceptual components empowers students, researchers, practitioners and other readers to use their understanding in interpreting, theorizing about and dealing with the complexities of power in their particular situations without tying them to any preconceived general theories about power.
