Rules governing enforced removals from the UK Great Britain: Parliament: House of Commons: Home Affairs Committee, 2012-01-26 The inquiry launched following the death of Jimmy Mubenga on a deportation flight from the UK found that although there were some positive aspects of the process which is carried out on the UK Border Agency's behalf by a private security contractor initially G4S and since 1 May 2011 Reliance Security the Committee found evidence of inappropriate use of physical restraint and the possible use of unauthorised and potentially dangerous restraint techniques weaknesses in passing on information about detainees medical conditions to all the relevant staff Use of racist language by contractors Use of excessive numbers of contractor staff The Committee recommends that the UK Border Agency should strengthen its procedures so that its own staff feel that they are entitled and expected to challenge any poor conduct on the part of contractors The Committee also rejects the practice of taking detainees to the airport as reserves in case another detainee is taken off a removal flight at the last minute To strengthen safeguards against the ill treatment of prisoners the Committee recommends that members of the Independent Monitoring Boards for immigration removal centres or a similar independent monitoring network be given access to chartered removal flights The Routledge Handbook on Global Community Corrections Ioan Durnescu, James M. Byrne, Benjamin J. Mackey, Faye S. Taxman, 2024-06-25 The Routledge Handbook on Global Community Corrections assesses and analyzes the status of community corrections systems around the world highlighting inter regional and intra regional variations in their design implementation and impact on policy and practice Covering both probation and parole this handbook brings together leading international experts to examine the myriad of systems developed under the broad heading of community corrections to manage community corrections populations at the pre adjudication adjudication and post release stages Chapters are designed to consider the following questions How many offenders are placed in community corrections systems around the globe What are the key design features of these community corrections systems What do we know about the effectiveness of community corrections within and across global regions This is an essential reference text for all those engaged with community corrections probation and post release policy in criminal justice *Security Entrepreneurs* Alexandra Gheciu, 2018 This book examines the dynamics and implications of processes of commercialization of security that have occurred following the collapse of communist regimes and focuses on four East European polities Bosnia Serbia Bulgaria and Romania Engaged Urbanism Ben Campkin, Ger Duijzings, 2016-11-25 Engaged Urbanism showcases the exciting ways in which urbanists are responding to this question and working towards fairer cities Its authors offer succinct candid and carefully illustrated commentaries on the trials and successes of risk taking research revealing how they collaborate across fields of expertise inventing or adapting methods to suit bespoke situations Featuring novel uses and combinations of practice from activism architectural design and undercover journalism to film sculpture performance and photography in a diversity of cities such as Beirut Johannesburg

Kisumu London and Rio de Janeiro Engaged Urbanism demonstrates how some of the greatest challenges for present and future populations are being rigorously and creatively addressed *Inquiry into the Role and Oversight of Private Security Contractors in Afghanistan: Congressional Report*, Supply Chain Justice Mary Bosworth, 2024-12-17 How the UK's immigration detention and deportation system turns people into monetized measurable units on a supply chain In the UK's fully outsourced immigration detainee escorting system private sector security employees detain, circulate and deport foreign national citizens Run and organized like a supply chain this system dehumanises those who are detained and deported treating them as if they were packages to be moved from place to place and relying on poorly paid minimally trained staff to do so In Supply Chain Justice Mary Bosworth offers the first empirically grounded scholarly analysis of the British detention and deportation system Drawing on four years of extensive ethnographic research Bosworth examines what keeps the system in place and whether it might be effectively challenged Told by a senior manager that this is a logistics business Bosworth documents how the public and private sectors have built a supply chain in which people's humanity is transformed both symbolically and tangibly through administrative processes and bureaucracy into monetized measurable units Like all logistics the system has failure built into it The contract does not seek to eradicate risk but rather to manage it determining responsibility and apportioning a financial value to such failures as delay, escape, aborted flight or death in custody Front line workers and managers depoliticise and normalise their efforts by casting their duties in familiar bureaucratic terms with targets, service level agreements and key performance indicators Focusing on first hand accounts from workers and lengthy observation and document analysis Bosworth explores the impact of border logistics in order to ask what it would take to build inclusive infrastructures rather than those designed to exclude

UN Use of Private Military and Security Companies Åse Gilje Østensen, 2011-11-09 Although subject to little discussion the UN has increasingly paid private military and security companies PMSCs for a range of services in the areas of humanitarian affairs, peacebuilding and development However this practice has rarely translated into coherent policies or guidelines that could guide the UN in setting standards or ensuring responsible contracting procedures This paper explores UN demand for PMSCs and identifies the need for a more proactive, sensitive and deliberate political approach in order to avoid potential pitfalls associated with involving PMSCs in the delivery of UN tasks

Inquiry Into the Role and Oversight of Private Security Contractors in Afghanistan United States. Congress. Senate. Committee on Armed Services, 2010 Guest Workers and Resistance to U.S. Corporate Despotism Immanuel Ness, 2011-09-01 Political scientist Immanuel Ness thoroughly investigates the use of guest workers in the United States the largest recipient of migrant labor in the world Ness argues that the use of migrant labor is increasing in importance and represents despotic practices calculated by key U.S. business leaders in the global economy to lower labor costs and expand profits under the guise of filling a shortage of labor for substandard or scarce skilled jobs Drawing on ethnographic field research, government data and other sources Ness shows how worker migration and guest worker

programs weaken the power of labor in both sending and receiving countries His in depth case studies of the rapid expansion of technology and industrial workers from India and hospitality workers from Jamaica reveal how these programs expose guest workers to employers abuses and class tensions in their home countries while decreasing jobs for American workers and undermining U S organized labor Where other studies of labor migration focus on undocumented immigrant labor and contend immigrants fill jobs that others do not want this is the first to truly advance understanding of the role of migrant labor in the transformation of the working class in the early twenty first century Questioning why global capitalists must rely on migrant workers for economic sustenance Ness rejects the notion that temporary workers enthusiastically go to the United States for low paying jobs Instead he asserts the motivations for improving living standards in the United States are greatly exaggerated by the media and details the ways organized labor ought to be protecting the interests of American and guest workers in the United States
