In this important book education expert Kim Marshall shows how to break away from the typical and often ineffective evaluation approaches in which principals use infrequent classroom visits or rely on standardized test scores to assess a teacher s performance. Marshall proposes a broader framework for supervision and evaluation that enlists teachers in improving the performance of all students. Emphasizing trust building and teamwork Marshall s innovative four part framework shifts the focus from periodically evaluating teaching to continuously analyzing learning. This book offers school principals a guide for implementing Marshall s framework and shows how to make frequent informal classroom visits followed by candid feedback to each teacher work with teacher teams to plan thoughtful curriculum units rather than focusing on individual lessons get teachers as teams involved in low stakes analysis of interim assessment results to fine tune their teaching and help struggling students and use compact rubrics for summative teacher evaluation. This vital resource also includes extensive tools and advice for managing time as well as ideas for using supervision and evaluation practices to foster teacher professional development. *Measuring Up* Daniel Koretz, 2009-09-15. *Measuring Up* demystifies educational testing from MCAS to SAT to WAIS. Bringing statistical terms down to earth Koretz takes readers through the most fundamental issues that arise in educational testing and shows how they apply to some of the most controversial issues in education today from high stakes testing to special education.
