Fully Weatherproof - IP 65

Rugged Structure

Unique Multi-Zone Principle

For Harsh Conditions

The **Meteor 200 WP** is a fully weatherproof (protection class IP 65) rugged construction multi-zone walk-through metal detector for harsh climates ranging from winter conditions to tropical environments. The **Meteor 200 WP** offers superior operation when exposed to mild or severe mechanical vibration.

UNIQUE MULTI-ZONE PRINCIPLE

True multi-zone design guarantees first-rate performance. Each detection zone functions as an independent detector and automatically increases discrimination by reducing the cumulative signal effect caused by distributed harmless objects.

THE BENEFITS OF THE MULTI-ZONE PRINCIPLE

- Superior discrimination.
- Reliable detection of threat items regardless of object orientation.
- High traffic throughput. Each zone can be adjusted independently to meet your security needs.
- Optimum immunity to environmental interference and external stationary metal.

MOBILITY

The unit can be easily moved to different locations.

COUNTERS

Intelligent traffic and alarm counter calculates the traffic flow and the number of caused alarms. The traffic counters can be set to decrement the number of pass throughs, thereby giving an accurate count.

EIGHT INDEPENDENT DETECTION ZONES

- Target objects are independently detected in each zone.
- Signals from harmless objects do not continue to produce unnecessary alarms.
- Provides more uniform detection.
- Zone display illuminates at the level where a detection occurs.

USER-FRIENDLY INTERFACE

All parameters are set through a remote control unit that utilizes passwords to eliminate unauthorized personnel to control the gate. The alphanumeric display on the remote control shows the results of the self-testing diagnostics, traffic counting, and parameter adjustment.

The Meteor 200 WP can withstand temperatures as cold as -30 °C (-22 °F) with optional heater.

Options & Accessories
