interact with SQL ones but it does not provide a course on how to program in VBA In case that you know some other imperative programming language like C or Java you will find VBA straightforward and will be able to code with it very fast using a few tips from web pages **Microsoft Access 2000 Exam Prep** Lisa Friedrichsen,2000 Featuring two complete practice tests on the CD ROM this guide contains all the Microsoft required criteria needed to pass the Access 2000 Level One and Level Two exams The book uses a step by step approach with highly visual two page spreads to give readers comprehensive training Practical Management of Pain Honorio MD Benzon,James P.
