Reading the Bible Ethically Eric J. Douglass, 2014-09-11 All interpretive systems deal with the author Modern systems consider the text to be autonomous so that it is disconnected from the author's interests In Reading the Bible Ethically Eric Douglass reconsiders this connection His central argument is that the author is a subject who reproduces her culture and her subjectivity in the text As the author reproduces her subjectivity the text functions as the author's voice This allows Douglass to apply ethical principles to interpretation where that voice is treated as a subject for conversation and not an object for manipulation He uses this to texture the reading process so that an initial reading takes account of the author's communication while a second reading critiques that communication

Jurgensmeier,2012-08-22 Is God still doing miracles today Because of the many claims of charismaticism on this issue a rather detailed biblical study of the matter is warranted We defend the following conclusions Modern miracle workers cannot demonstrate the attributes of biblical ones and are lying when they claim similar gifts There are no God sent miracle workers in Scripture that were not also sources of new direct divine revelation to be believed and obeyed as the word of God The faith to perform or receive a miracle is just as supernatural and God given as the miracle itself and modern faith healers are wrong to blame disappointed followers for their lack of such faith The Church has universally testified that the gifts of miracle working ceased in the early Church with the completion of the NT The fraud in the modern miracle movement has been immense Other legitimate explanations for modern miracles are intriguing and even alarming
