Tom Gillis Control Tactics Manual is a very comprehensive, complete training manual for trainers that teach street tactics for law enforcement officers. Larry Smith, Lt. retired San Diego CA Police Department.

*For Security Personnel, HANDCUFFING, 2020* Mürsel Sevindik, 2020-04-15 This book covers Handcuffing issues for law enforcement officers. The goal is to understand and be able to perform proper techniques of using handcuffs. Handcuffs are temporary restraining devices designed to control the movements of a subject. Officers may routinely use handcuffs to control, restrain, and transport persons. Restraining devices will be applied properly and in accordance with training received so as to minimize the risk of unnecessary injury. The design of handcuffs ensures that the subject's movements are controlled to reduce the risk of injury to the police officer, members of the public, and the subject himself. The most common types of handcuffs used in law enforcement today are the traditional and hinged variety. In addition, officers also use plastic cuffs in some situations. Handcuffs do not entirely immobilize a suspect. Regardless of the type used, it is imperative that officers be aware that the police style handcuff is a temporary restraining device and that its proper use and application is crucial for the safety of the officer and subject. Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement.

**DEFENCE and INTERVENTION -2- (Weapon Retention and Disarming, Handcuffing, Conducting Suspect Searches, Defensive Baton)** Mürsel Sevindik, 2020-04-25 This book covers Weapon Retention and Gun Disarming, Handcuffing, Conducting Suspect Searches, and Defensive Baton subjects for law enforcement officers. In some close encounters, a suspect may try to grab the officer's sidearm. Loss of the officer's gun could mean the loss of his/her life. The officer or civilians may be killed or injured by offenders who take and use an officer's firearm. Officers must develop a

defensive awareness that their weapon can be snatched Handcuffs are temporary restraining devices designed to control the movements of a subject However they do not entirely immobilize a suspect Its proper use and application is crucial for the safety of the officer subject and public Body searching is a vague topic It is a careful systematic examination of the suspect at the scene of a crime or immediately after apprehension Failure to conduct a proper search could cost an officer s or civilians life Modern law enforcement tool baton has been developed to increase officers ability to protect themselves particularly in those cases not justifying the use of deadly force A trained officer who is proficient in the use of the baton is better able to protect himself and is less likely to resort to the use of his firearm Topics and techniques presented in this book will be of both great interest and great value to trainers and students of law enforcement
