Interactive Oral History Interviewing:

Interactive Oral History Interviewing Eva M. Not Just Victims Audrey U. Kim, 2003 Not Just Victims contains twelve oral histories based on conversations with Cambodian community leaders in eight American cities Long Beach Philadelphia Washington D C Seattle Portland Tacoma and the Massachusetts towns of Fall River and Lowell Unlike the dozens of autobiographies published by Cambodians that focus largely on their victimization these narratives describe how Cambodian refugees have adapted to life in the United States Sucheng Chan s extensive introduction provides a historical framework she discusses the civil war 1970 75 the bloody Khmer Rouge revolution 1975 79 the border war during

the Vietnamese occupation of Cambodia 1979-89 and the additional travails faced by those who escaped to holding camps in Thailand. Oral history is increasingly acknowledged as a key tool for anyone studying the history of the recent past. This book is the first to provide a comprehensive and systematic overview of oral history theory in an accessible format. The book is structured around key themes including the peculiarities of oral history, the study of the self, subjectivity and intersubjectivity, memory, narrative, performance and power. Each chapter provides a clear and user-friendly explanation of the various theoretical approaches, illustrates them with examples from the rich field of published oral history and makes suggestions for the practicing oral historian. There is also a glossary of key terms and concepts. Combining the study of theoreticians with the observations of practitioners and including extensive examples of oral history work from around the world, this book constitutes the first integrated explanation of oral history theory. It will be invaluable to experienced and novice oral historians, professionals and students who are new to the discipline. *An Oral History of the Portuguese Colonial War* Ângela Campos, 2017-02-23. This oral history of ex-combatants of the Portuguese colonial war places the reader face to face with the men who were conscripted to fight the last and bloodiest of the West's colonial wars in Africa, namely in Angola, Mozambique and Guinea-Bissau, then Portuguese Guinea, between 1961 and 1974. At the forefront of this work are the lived experiences of a wide range of Portuguese veterans, framed by broader insights about the post-war public memory of this event in Portugal. Moving away from stereotypical and polarized images of these ex-combatants, *An Oral History of the Portuguese Colonial War: Conscripted Generation* explores the memories and consequences of this war for these veterans and their society. Seeking to understand why Portuguese ex-combatants often feel neglected and historically unrecognized, this book presents a thorough portrait of a continually shifting and at times paradoxical individual and collective remembrance process. Working in the Archives Alexis E. Ramsey, Wendy B. Sharer, Barbara L. Eplatténier, Lisa Mastrangelo. Do Not Use, 2009-12-14. Archival research of any magnitude can be daunting. With this in mind, Alexis E. Ramsey, Wendy B. Sharer, Barbara L. Eplatténier and Lisa Mastrangelo have developed an indispensable volume for the first-time researcher as well as the seasoned scholar. *Working in the Archives* is a guide to the world of rhetoric and composition archives, from locating an archival source and its materials to establishing one's own collection of archival materials. This practical volume provides insightful information on a variety of helpful topics, such as basic archival theory, processes and principles, the use of hidden or digital archives, the intricacies of searching for and using letters and photographs, strategies for addressing the dilemmas of archival organization without damaging the provenance of materials, the benefits of seeking sources outside academia, and the difficult yet often rewarding aspects of research on the Internet. *Working in the Archives* moves beyond the basics to discuss the more personal and emotional aspects of archival work through the inclusion of interviews with experienced researchers such as Lynne Lewis Gaillet, Peter Mortensen, Kathryn Fitzgerald, Kenneth Lindblom, and David Gold. Each shares

his or her personal stories of the joys and challenges that face today's researchers. Packed with useful recommendations, this volume draws on the knowledge and experiences of experts to present a well-rounded guidebook to the often winding paths of academic archival investigation. These in-depth yet user-friendly essays provide crucial answers to the myriad questions facing both fledgling and practiced researchers, making *Working in the Archives* an essential resource.

Clio in the Classroom Carol Berkin, Margaret S. Crocco, Barbara Winslow, 2009-02-02 Over the last four decades, women's history has developed from a new and marginal approach to history to an established and flourishing area of the discipline taught in all history departments. *Clio in the Classroom* makes accessible the content, key themes and concepts, and pedagogical techniques of U.S. women's history for all secondary school and college teachers. Editors Carol Berkin, Margaret S. Crocco, and Barbara Winslow have brought together a diverse group of educators to provide information and tools for those who are constructing a new syllabus or revitalizing an existing one. The essays in this volume provide concise up-to-date overviews of American women's history from colonial times to the present that include its ethnic, racial, and regional changes. They look at conceptual frameworks key to understanding women's history and American history, such as sexuality, citizenship, consumerism, and religion. And they offer concrete approaches for the classroom, including the use of oral history, visual resources, material culture, and group learning. The volume also features a guide to print and digital resources for further information. This is an invaluable guide for women and men preparing to incorporate the study of women into their classes, as well as for those seeking fresh perspectives for their teaching.

Encyclopedia of Historians and Historical Writing Kelly Boyd, 2019-10-09 The *Encyclopedia of Historians and Historical Writing* contains over 800 entries ranging from Lord Acton and Anna Comnena to Howard Zinn and from Herodotus to Simon Schama. Over 300 contributors from around the world have composed critical assessments of historians from the beginning of historical writing to the present day, including individuals from related disciplines like Jürgen Habermas and Clifford Geertz, whose theoretical contributions have informed historical debate. Additionally, the *Encyclopedia* includes some 200 essays treating the development of national, regional, and topical historiographies from the Ancient Near East to the history of sexuality. In addition to the Western tradition, it includes substantial assessments of African, Asian, and Latin American historians and debates on gender and subaltern studies.

History of Oral History Leslie Roy Ballard, 2007-04-09 Gathered here are parts I and II of the *Handbook of Oral History*, which set the benchmark for knowledge of the field. The eminent contributors discuss the history and methodologies of a field that once was the domain of history scholars who were responding to trends within the academy but which has increasingly become democratized and widely used outside the realm of historical research. This handbook will be both a traveling guide and essential touchstone for anyone fascinated by this dynamic and expanding discipline.

But educators today may wonder how they might use it to inspire their students while still teaching the necessary curriculum and meeting standards. In *Dialogue with the Past*, Glenn Whitman addresses these concerns from his own rich experience and that of many other teachers and students. He helps readers understand the background and methodology of oral history, guides them in creating and conducting an oral history project in the classroom, and directly addresses the issue of meeting standards. Peppered with useful tips, examples from students and teachers, and reproducible forms, along with a comprehensive bibliography, this book will be a vital and inspirational tool for anyone working with secondary students. Sudha Rani, Rachel Irdaya Raj, 2025-02-25 This interdisciplinary volume attempts to gauge the individual and social issues related to memory with an understanding of memory studies as an independent body of scholarship. It draws on multiple fields of knowledge like popular culture, history, literature, oral cultures, and storytelling, which facilitates a panoramic view of memory studies. This book investigates the intersection between memory studies, oral literature, and digital technology. It is also informed by the consciousness of memory in the digital age, which plays an integral role in what is remembered, forgotten, the form in which such memories are stored, and how they might be retrieved in the future. This book will be an invaluable resource for those involved in research, from undergraduate to post-doctoral level. This includes sociologists, psychologists, historians, artists, academicians, as well as research scholars from other disciplines. **Researching Amongst Elites** Luis L.M. Aguiar, Christopher J. Schneider, 2016-04-22 Academics often direct their research across in order to examine issues that grip members of the middle classes or down in order to understand the difficulties workers and other marginalized groups endure. Research that is directed up at individuals and groups with positions of greater wealth and power is less common, yet studying up can contribute to our understanding of growing inequality, economic polarization, and social change by studying the rich, powerful, and elite in our society. Presenting the latest empirical case studies from Canada, the USA, and Australia, this volume explores the challenges and difficulties involved in conducting research amongst the rich and elite, whilst shedding light on the manner in which power is harnessed, protected, and controlled to manage and manipulate resources. A demonstration of the importance of studying up to our understanding of decision making, governance, and the nature of contemporary democracy in the global economy, *Researching Amongst Elites* will be of interest to sociologists, anthropologists, and geographers working in areas such as social research methods, social stratification, the sociology of elites, and relations of class, wealth, and

power **Doing Oral History** Donald A. Ritchie, 2015 *Doing Oral History* is considered the premier guidebook to oral history used by professional oral historians public historians archivists and genealogists as a core text in college courses and throughout the public history community The recent development of digital audio and video recording technology has continued to alter the practice of oral history making it even easier to produce and disseminate quality recordings At the same time digital technology has complicated the preservation of the recordings past and present This basic manual offers detailed advice for setting up an oral history project conducting interviews and using oral history for research making video recordings preserving oral history collections in archives and libraries and teaching and presenting oral history
