STEM Education in Poverty Brantina Chirinda, Gladys Sunzuma, Perkins Muredzi, 2025-07-15 This book is about Science Technology Engineering and Mathematics STEM education in poverty and the lessons we learn from Zimbabwe The world is driving towards the fourth Industrial Revolution 4IR where economic growth has been attributed to STEM education STEM education is vital in this era where both developed and developing countries are undergo rapid changes Globally STEM education has been practised differently in schools and universities University programs new school curricula instructional methods extracurricular programs and professional development programs for in service teachers have been created to cater to STEM subjects STEM education is envisioned to produce critical thinkers inventors creators problem solvers innovators and professionals who will solve the world's ever changing challenges including inequity food insecurity climate change inequality and poverty STEM is essential to modern education Zimbabwe has faced significant economic challenges but has made remarkable strides in STEM education By examining the successes and challenges of STEM education in Zimbabwe we can learn valuable lessons about improving STEM education in underserved communities This book contributes to the international debate surrounding the optimal STEM education for students in underserved schools It

incorporates detailed accounts of STEM education in Zimbabwe schools shedding light on the challenges students and educators face in impoverished areas In Zimbabwe STEM education faces significant challenges such as materials and facilities pedagogy policy reform access and relevance Some of the main issues highlighted in this book are the need for more resources including funding teaching materials and adequate laboratories Effective STEM pedagogy is hampered by an education system that emphasises the curriculum and teacher centred focus instead of focusing on how students can be taught or learn Research has shown that in Zimbabwe STEM teachers must apply inventive pedagogies and suitable learner centred STEM teaching approaches As a result there is a need for more STEM related programs and courses in schools and universities to improve the opportunities for students to pursue careers in these fields Another challenge is the need for more awareness about the opportunities and importance of STEM education and interest in STEM subjects among students which can be attributed to a lack of exposure and understanding of the relevance and importance of these fields in today s world While lack of resources and other challenges hinder effectiveness opportunity lies in promising pathways of policy and practice In Zimbabwe there is a varying degree of success in the implemented competence based curriculum which emphasises inquiry based learning and STEM education Finally there is a need for early exposure to STEM based career opportunities and for more collaboration between the government private sector and educational institutions to address these challenges and promote STEM education in Zimbabwe This book uses Zimbabwe as an example to explore STEM education in poverty By examining the successes and challenges of STEM education in Zimbabwe this book offers valuable insights into how STEM education can be integrated into the curriculum in countries with developing and emerging economies This book is an essential resource for anyone interested in improving STEM education in underserved communities

Indigenous Knowledge Systems integration into STEM education: A Zimbabwean perspective

Sunzuma G,Zezekwa N,Mudzamiri E,Chikuvadze P,2025-05-25 The inclusion of Indigenous Knowledge Systems IKS in STEM education is a crucial step towards decolonizing knowledge and creating inclusive relevant learning spaces that reflect culture This book examines the theoretical practical and contextual aspects of incorporating IKS into Zimbabwe s STEM curriculum with a focus on high school education The book is a reflection of the realization that education systems in postcolonial societies like Zimbabwe must do more than simply propagate traditional Western paradigms The lived experiences past events and educational institutions of their society must be reflected on and informed by them The rich Indigenous knowledge in Zimbabwe has played a significant role in shaping communities understanding of agriculture health engineering mathematics and the environment over time Still much of this knowledge has been marginalized in formal education By providing a framework for the meaningful integration of IKS into STEM disciplines this work seeks to close that gap Indigenous Knowledge Systems are introduced in Chapter 1 detailing their origin development and philosophical basis Chapter 2 An Examination of the current integration of IKS into STEM education in Zimbabwe taking into account curricular

approaches and classroom practice Chapter 3 highlights the importance of evaluating and assessing integration efforts by proposing culturally sensitive and multidimensional approaches that are appropriate for Zimbabwean classrooms In Chapter 4 we explore the challenges and obstacles to achieving successful IKS STEM integration such as teacher readiness epistemological tensions and systemic resistance Chapter 5 offers an exceptional examination of how Indigenous knowledge artefacts and practices can be utilized for conceptual development in high school STEM instruction with practical examples from Zimbabwean communities being included in the analysis It is aimed at teachers researchers and practitioners of decolonial education practices as well as policymakers and teacher trainers to develop locally relevant and globally relevant pedagogies We aspire that this work will contribute to advancing scholarship that recognizes Indigenous knowledge as essential living science and promotes African learners as both recipients and producers of valuable knowledge
