 papers *Leadership Approaches to Negotiate Challenges in a Changing Education Landscape* Leentjie van Jaarsveld, Kobus
 Mentz, Charl C. Wolhuter, 2020-12-31 The argumentative point of departure of this scholarly book is the common conviction of
 specialists in the field of education in South Africa that the national education system is not at a satisfactory level in both the
 academic and the public discourse Such allegations are made and frequently stronger adjectives than non satisfactory are
 used Results of international test series in which South Africa has participated such as the 2015 TIMSS tests confirm the
 negative verdicts found in the public and scholarly discourse This book aims to argue that although the lack of performance
 could be attributed to a multiplicity of factors one factor that can make a difference in the achievement levels obtained by
 learners in schools is leadership The book demonstrates that a particular problem of both the scholarly and the public
 discourse on education in South Africa is an overtone of defeatism or resignation blaming all ills in the education system and
 educational institutions on historical legacies and or contextual factors such as socio economic deprivation in the catchment
 areas of schools or poor resources and infrastructure This collected work was inspired by a recently published spate of
 articles on top performing schools including top performing schools in rural communities in which it was demonstrated that
 good leadership can overcome such contextual and other challenges The book unpacks the issue of leadership in South
 African schools from a variety of perspectives thus contributing to the development of the scholarly discourse on Educational
 Leadership in South Africa The target audience of the book is scholars of Educational Leadership The research reported in
 the chapters draw on a wide range of methodologies including empirical survey research questionnaires and interviews
 critical literature surveys and the comparative method **A classified catalogue of ... education works in use in the
 United Kingdom and its dependencies** United Kingdom, 1876
