Implantable Cardiac Devices Technology David Korpas, 2014-05-13 Development in a majority of medicine branches today is based on technological advancement. This is the case in cardiology where medical devices designed to correct heart rhythm pacemakers cardioverters defibrillators and biventricular systems are implanted in order to help a sick heart. Medical pacing devices today are only developed and produced globally by a several producers who make different technical solutions algorithms system parameters etc. The book *Implantable Cardiac Devices Technology* is targeted at biomedical clinical engineers technicians in practice students of biomedical disciplines and all medical staff who are required to understand the basics of pacing technology. The book is comprised of fourteen chapters that are further subdivided according to specific topics. Chapters dealing with basic heart anatomy physiology and arrhythmology are included for the sake of comprehensiveness. Chapters avoid the description of special functions but cover general procedures and parameters common for the systems of all producers. The book is intended to serve as a monothematic textbook. In order to make the text comprehensible and well arranged for a reader references to professional literature are only provided once in a respective chapter.

Innovation for inclusive value-chain development Devaux, André, Torero, Maximo, Donovan, Jason, Horton, Douglas E., 2016-10-21 Governments nongovernmental organizations donors and the private sector have increasingly embraced value chain development VCD for stimulating economic growth and combating rural poverty. *Innovation for Inclusive Value Chain Development Successes and Challenges* helps to fill the current gap in systematic knowledge about how well VCD has performed related trade offs or undesired effects and which combinations of VCD elements are most likely to reduce poverty and deliver on overall development goals. This book uses case studies to examine a range of VCD experiences. Approaching the subject from various angles it looks at new linkages to markets and the role of farmer organizations and contract farming in raising productivity and access to markets the minimum assets requirement to participate in VCD the role of multi stakeholder platforms in VCD and how to measure and identify successful VCD interventions. The book also explores the challenges livestock dependent people face how urbanization and advancing

technologies affect linkages ways to increase gender inclusion and economic growth and the different roles various types of platforms play in VCD
