

**Chapter
7****Performance Task (1)** (continued)**Fair and Unfair Carnival Games**

4. Your team decides to change the rules of the game. Now, if a student ties with the envelope, the student gets to have a second chance to play. The student gets to choose whether he or she wants to keep all 24 envelopes to choose from or eliminate the envelope he or she just opened. If the student decides to keep all 24 envelopes, your team will rearrange the slips of paper in the envelopes first. If the student happens to tie again, the student's dollar is donated to the fundraiser and his or her turn is over. Which would be a better choice for the student if he or she wants the dollar back? Which would be a better choice for your team if you want to raise more money? Justify your answers using probabilities.
