Numeracy in Authentic Contexts Maura Sellars,2017-10-25 This book is based on the notion that there are many ways in which mathematics learning can be achieved for students and that not all of them are focused on the mathematics classroom It explores the foundational numeracy principles of the non mathematical subject areas and aligns these to the Australian numeracy learning continuum It demonstrates in detail the extent to which numeracy competencies underpin successful learning in all the subject areas of the curricula It validates a focus of developing numeracy competencies through learning in the arts science and other discipline areas with which school students to engage with in order develop holistically but which are not subjected to national assessment practices It is developed around the notion of praxis putting theory into practice in order to respond to the urgent need for students to be supported in their efforts to increase their numeracy capabilities in a world where extensive amounts of new information are often presented in

graphical or data based formats Additionally it offers perspectives on developing all students capacities to become numerate in school contexts and presents inclusive differentiated lesson examples as an alternative way of exploring numeracy in the context of teaching and learning in real world classroom contexts      **Reading and Learning Difficulties** Peter

Westwood,2016-09-01 The new edition of Peter Westwood s best selling Reading and Learning Difficulties addresses recent initiatives around the teaching of reading the value of a phonics based approach and international research around literacy teaching learning and pedagogy It presents evidence based methods for teaching reading skills looks at the increasing role of technology and online learning in literacy and evaluates the success of literacy interventions implemented in Australia and elsewhere Reading and Learning Difficulties provides guidance on how to develop flexible teaching methods to suit varied ways of learning By examining the way readers process texts and identifying the knowledge and skills needed to become a proficient reader it explains why learning problems can sometimes occur and what can be done to prevent or overcome these difficulties
