The contents of the text encompass a fairly broad spectrum of organizational behavior and management within the context of the healthcare industry and its associated organizations. Among the topics covered: Leadership in Health and Medicine, Motivation in Health and Medicine, Communication in Health and Medicine, Strategy in Health and Medicine, Ethics and Social Responsibility in Health and Medicine, Organizational Culture in Health and Medicine, Groups and Teams in Health and Medicine, Power and Politics in Health and Medicine. Beyond its efficient presentation of core facets of organizational behavior and management, the book features practical insights in each chapter from the authors' experiences as leaders at a health system. These passages share real world insights often involving unique applications, innovative thinking, and other creative perspectives from practice. These viewpoints are invaluable for helping readers to ground the theoretical overviews presented in each chapter, bolstering knowledge and understanding.
