Google Terms Of Service Change:

Google and the Law Aurelio Lopez-Tarruella, 2012-02-22 Google s has proved to be one of the most successful business models in today s knowledge economy Its services and applications have become part of our day to day life However Google has repeatedly been accused of acting outside the law in the development of services such as Adwords Googlebooks or YouTube One of the main purposes of this book is to assess whether those accusations are well founded But more important than that this book provides a deeper reflection are current legal systems adapted to business models such as that of Google or are they conceived for an industrial economy Do the various lawsuits involving Google show an evolution of the existing legal framework that might favour the flourishing of other knowledge economy businesses Or do they simply reflect that Google has gone too far What lessons can other knowledge based businesses learn from all the disputes in which Google has been or is involved This book is valuable reading for legal practitioners and academics in the field of information technologies and intellectual property law economists interested in knowledge economy business models and sociologists interested in internet and social networks Dr Aurelio Lopez Tarruella is Senior Lecturer in Private International Law at the University of Alicante Spain

Wrap Contracts Nancy S. Kim, 2013-07-27 When you visit a website check your email or download music you enter into a contract that you probably don t know exists Wrap contracts shrinkwrap clickwrap and browsewrap agreements are non traditional contracts that look nothing like legal documents Contrary to what courts have held they are not just like other standard form contracts and consumers do not perceive them the same way Wrap contract terms are more aggressive and permit dubious business practices such as the collection of personal information and the appropriation of user created content In digital form wrap contracts are weightless and cheap to reproduce Given their low cost and flexible form businesses engage in contracting mania where they use wrap contracts excessively and in a wide variety of contexts Courts impose a duty to read upon consumers but don t impose a duty upon businesses to make contracts easy to read The result is that consumers are subjected to onerous legalese for nearly every online interaction In Wrap Contracts Foundations and Ramifications Nancy Kim explains why wrap contracts were created how they have developed and what this means for society She explains how businesses and existing law unfairly burden users and create a coercive contracting environment that forces users to accept in order to participate in modern life Kim s central thesis is that how a contract is presented affects and reveals the intent of the parties She proposes doctrinal solutions such as the duty to draft reasonably specific assent and a reconceptualization of unconscionability which fairly balance the burden of wrap contracts between businesses and consumers

The Intention Economy Doc Searls, 2012-04-10 Caveat venditor let the seller beware While marketers look for more ways to get personal with customers including new tricks with big data customers are about to get personal in their own ways with their own tools Soon consumers will be able to Control the flow and use of personal data Build their own loyalty programs Dictate their own terms of service Tell whole markets what they want how they want it where and when

they should be able to get it and how much it should cost And they will do all of this outside of any one vendor's silo This new landscape we're entering is what Doc Searls calls The Intention Economy one in which demand will drive supply far more directly efficiently and compellingly than ever before In this book he describes an economy driven by consumer intent where vendors must respond to the actual intentions of customers instead of vying for the attention of many New customer tools will provide the engine with VRM Vendor Relationship Management providing the consumer counterpart to vendors CRM Customer Relationship Management systems For example imagine being able to change your address once for every company you deal with or combining services from multiple companies in real time in your own ways all while keeping an auditable accounting of every one of your interactions in the marketplace These tantalizing possibilities and many others are introduced in this book As customers become more independent and powerful and the Intention Economy emerges only vendors and organizations that are ready for the change will survive and thrive Where do you stand **Regulatory Aspects**
