### step 2 Prepare for Network connection

--- When using wireless connection, you need to set the network setup in the Initial Setup Wizard (see step 4).  
 --- The port (LAN, USB, and the digital output) color is as follows: "Green" (Ethernet), "Orange" (USB), and "Red" (Digital).

### step 3 Connect to the power source

- 1 Connect to the power source
  - 2 Change the TV input
- Switch the input selector on the TV so that the signal from the player appears on your TV screen. Then, a screen that shows how to setup your remote appears.

**Note**  
 You will only appear the first time you setup your player.

### step 4 Start the Initial Setup Wizard

- Follow the directions for the Initial Setup displayed on screen.
- Complete the Network setup process, otherwise the Initial Setup Wizard cannot be closed.
  - The screen may stay dark for several seconds after the Sony logo appears, then the Initial Setup screen appears.
  - It takes about 10 minutes to complete the Initial Setup.
  - If the remote does not function, see "Troubleshooting" on the back side of this guide.

## To control connected devices using the remote

This player is equipped with a built-in IR Blaster that accepts remote commands and sends them to various connected devices to control them with your remote.

When you set the player close to a connected device (as illustrated on the right), you can control the device using the remote, including operations such as changing TV channels or adjusting the volume of an AV Receiver.

However, if you place the player in a location where IR signals cannot reach, you cannot control connected devices with the built-in IR Blaster. In this case, connect the supplied IR Blaster as follows:  
 1 Connect the IR Blaster cable to the player.  
 2 Place the IR Blaster so that the infrared transmitter points to the IR receiver (sensor) on the device you want to control, as illustrated on the right.

\*Location of the IR receiver may vary depending on the product you are using.
