Multiplication Grade 4 ,1991 *Teaching Students with Moderate and Severe Disabilities* Diane M. Browder,Fred Spooner,2011-07-06 This book has been replaced by Teaching Students with Moderate and Severe Disabilities Second Edition 978 1 4625 4238 3 **Homework, Learning and Academic Success: The Role of Family and Contextual Variables** Antonio Valle,Susana Rodríguez,Pedro Rosário,Mar Lorenzo Moledo,2020-02-24 The main purpose of this Research Topic is to analyze and identify the main family and contextual variables that are involved in the process of carrying out homework This will require studying the role played by teachers students and families in order to ensure that schoolwork is a useful learning tool Although the role of the student is obviously crucial in homework research has focused on the cumulative time spent by the student carrying out homework However the time spent on homework is not in itself evidence of the student s involvement nor is time spent indicative of quality time Indeed an excess of time can sometimes denote low competence in a field of knowledge while spending less time on homework could be indicative of high competence It is more likely that a high dedication of time spent on homework reflects high motivation or comprehension deficits rather than commitment to learning or academic motivation In tandem with the role of the student teachers as responsible for prescribing homework assignments for students also become central players in the process of completing homework assignments The decisions that teachers make about homework prescriptions and the amount and type of tasks they set will determine to a large extent the quality of the homework process including the student s motivation and the student s level of engagement with homework Furthermore the fact that homework is useful interesting and motivating for students will depend on how the teacher prescribes those tasks and the connection established with classroom learning Teacher feedback

also acquires particular relevance for this point by helping the students to accurately estimate the quality of their progress and overcome the difficulties they may have encountered in carrying out their homework. Lastly, the effectiveness of teacher feedback depends on its contribution to the student's educational progress and how that student will perform in the future. In addition to the student who performs the task and the teacher who prescribes and corrects it, we must not lose sight of the parent's role. Although there are discrepancies regarding the role that parents play in relation to homework, it is evident that their implication has important consequences not only on the final result of those tasks but also on the very process of carrying them out. Everything seems to indicate that the family environment and more specifically the support and feedback provided by parents is a factor that can determine the involvement of students in school duties. In this way, providing emotional support, encouraging children to get involved, can contribute positively to improving their motivation and interest in the performance of homework. The objective of this Research Topic is to provide researchers and professionals in psychology and education settings with some of the most recent empirical evidence regarding the homework process, its prescription and correction. Overall, we aim to cease making homework a source of conflict and controversy at the socio-educational level in order to provide useful instruments for improving the quality of student learning. This work was developed with the financing of the research projects EDU2013-44062-P (MINECO) and EDU2017-82984-P (MEIC).

Transactional Radio Instruction Jacob Udo-Udo Jacob, Margee Ensign, 2020-04-28. This book offers an important addition to the growing literature on education in emergencies. In war situations or in the wake of natural disasters, children's education is often significantly disrupted. This book demonstrates how the authors used radio and mobile technologies to improve educational outcomes for over 20,000 displaced and out-of-school children in northeast Nigeria at the height of the Boko Haram insurgency. Interactive Radio Instruction (IRI) programs typically interact with a functional classroom teacher. However, the transactional radio instruction strategy presented provides high-quality, safe, and sensitive education in war-torn

societies where there are no schools or teachers Summarizing the research and lessons learned from a USAID funded Technology Enhanced Learning for All TELA project in Boko Haram ravaged northeast Nigeria the book describes in detail an education in emergency strategy based on a whole of community approach with radio and mobile tablets at its core

The New Teacher Revolution Josh Stumpenhorst, 2015-02-09 For 21st Century Educators The New Rules Of Student Engagement Today's classroom demands teacher innovation and rejection of outdated practices especially when someone tells you it's always been done a certain way In this book Josh Stumpenhorst details his methods for improving student outcomes with unorthodox thinking Content includes Building relationships built on trust and respect not fear and punishment Why you need to rethink homework and letter grades which in their current forms are harming learning How to leverage technology by not treating it as a shiny toy but rather fully understanding their power as tools for massive progress
