can collect additional evidence of students learning so that we provide feedback that moves learning forward Establish norms for combining synchronous and face to face environments in simultaneous learning Importantly we have to set up the environment for our Roomies and Zoomies to learn together Develop learning experiences and tasks that maximize learner engagement for all learners in all settings Focus on acceleration and learning recovery In other words no more deficit thinking Our students are where they are and there are specific things that we can do to ensure their learning Implement the guide s many resources strategies and templates None of us chose to be in a situation where some learners are physically in our classrooms while others attend virtually and remotely write Doug Nancy John and Aleigha However what we hope to convey is that we ve got this While the context is different the principles behind clarity planning high yield strategies and interventions student learning and assessment hold steady This is where The Quick Guide to Simultaneous Hybrid and Blended Learning will prove indispensable on this next leg of our journey
