[The Primary English Encyclopedia](#) Margaret Mallett, 2012 This newly updated user-friendly encyclopedia explains concepts, aims and current requirements in all aspects of the primary English curriculum and is an invaluable reference for all training and practising teachers. Now in its fourth edition, entries have been updated to take account of new research and thinking and now reflect the requirements of the new Primary National Curriculum and particularly The Communication Language and Literacy Development element. The approach is critical but constructive and supportive of the reflective practitioner in developing sound subject knowledge and good classroom practice. The encyclopedia includes over 600 entries including new entries on English in the Early Years, bilingualism, SEN, the use of the internet, synthetic phonics and many more. Short definitions of key concepts, succinct explanations of current UK requirements, extended entries on major topics such as speaking and listening, reading, writing, drama, poetry, bilingualism and children's literature, input on new literacies and new kinds of texts for children, discussion of current issues and some input on the history of English teaching in the primary years, gender and literacy, important references for each topic, advice on further reading and accounts of recent research findings, a Who's Who of Primary English and lists of essential texts updated for this new edition. This encyclopedia will be ideal for student teachers on BA and PGCE courses preparing for work in primary schools and primary school teachers.

[Literacy Moves On](#) Janet Evans, 2012-12-06 This book looks at the changing nature of literacy and at the way in which new and different literacies are emerging in the first part of the 21st century. It considers how children are shaping and being shaped by these changes; it also looks at how teachers need to bridge the gap between children's out-of-school interests and school-based curriculum demands. This edited collection, which features chapters by international experts and voices in the field, aims to take a closer look at and demystify some of the influences on literacy in the 21st century, e.g. popular culture, multi-modal texts, email, text messaging and critical literacy. Enhance teachers' awareness of these developments and show how they can use them to improve the literacy skills of their pupils. Show through the Implications for Practice sections how teachers can find different but straightforward ways of linking children's personal out-of-school interests with the demands of the school curriculum.

*Modern Short Stories* Alex Martin, Robert Hill, 1992 These texts are a mixture of established classics and more contemporary work. A comparative approach using two or more selections on the same theme helps students understand the qualities of the story or poem. Each selection is illustrated with film stills or other material to set the scene and stimulate discussion. Exercises focus on personal response on discussing literary qualities such as style, character

imagery and ideas and on developing language awareness in terms of grammar vocabulary and different styles of writing
