The Writings of Ferdinand Lindheimer John E. Williams, 2020-09-25 Ferdinand Jacob Lindheimer is known as the father of Texas botany. While he was not the first botanist to collect plants for scientific examination in Texas, his collections are credited with helping botanists around the world to understand the nature, extent, and significance of the diversity of plants in the state. In partnership with Asa Gray of Harvard University, Lindheimer spent eight years collecting Texas plants to distribute to a list of paying subscribers, including places like the British Museum, the Royal Botanic Gardens at Kew, and the Smithsonian Institution. Today, no fewer than 362 plant names are based at least in part on Lindheimer collections, and 65 plants have been named in his honor. Lindheimer was a founding settler of New Braunfels, raising his family on the banks of the Comal River while he continued to collect and ship plant specimens. He was elected as the first editor of the *Neu Braunfelser Zeitung*, still published today as the *Herald Zeitung*, and served from 1852 to 1872. He wrote a number of articles for the *Zeitung* on topics ranging from plants, climate, and agriculture to Texas Indian affairs, optimism, and teaching schoolchildren. In the last year of Lindheimer's life, one of his students worked with him to collect an assortment of his essays and articles from the *Zeitung*. In 1879, the collection was published as *Aufsätze und Abhandlungen von Ferdinand Lindheimer in Texas*. Essays and Articles of Ferdinand Lindheimer in Texas. John E. Williams now offers the first English translation of these essays, which provides valuable insight into the natural and cultural history of Texas.

**Sundown Towns** James W. Loewen, 2018-07-17 Powerful and important, an instant classic. The Washington Post Book World. The award-winning look at an ugly aspect of American racism by the bestselling author of *Lies My Teacher Told Me*, reissued with a new preface by the author. In this groundbreaking work, sociologist James W. Loewen, author of the classic bestseller *Lies My Teacher Told Me*, brings to light decades of hidden racial exclusion in America. In a provocative, sweeping analysis of American residential patterns, Loewen uncovers the thousands of sundown towns—almost exclusively white towns where it was an unspoken rule that blacks were not welcome—that cropped up throughout the twentieth century, most of them located outside of the South. Written with Loewen's trademark honesty and thoroughness, *Sundown Towns* won the Gustavus Myers Outstanding Book Award, received starred reviews in *Publishers Weekly* and *Booklist*, and launched a nationwide online effort to track down and catalog sundown towns across America. In a new preface, Loewen puts this history in the context of current controversies around white supremacy and the Black Lives Matter movement. He revisits sundown towns and finds the number way down, but with notable exceptions in exclusive all-white suburbs such as Kenilworth, Illinois, which as of 2010 had not a single black household. And although many former sundown towns are now integrated, they often face second-generation sundown town issues, such as in Ferguson, Missouri, a former sundown town that is now majority black but with a majority white police force.

**Chinese Criminal Entrepreneurs in Canada, Volume II** Alex Chung,2019-03-09 This book explores how the new Asian criminal entrepreneurs in Canada known as The Big Circle Boys BCB competitively dominated the Canadian heroin market in the 1990s without a formal organisation or explicit hierarchical structure Drawing on the market resilience framework it examines how the BCB smuggled drugs by using social capital shared resources and trust effectively through their ethnicity How did they counter external security challenges and promote internal competitive cooperation Were they able to resolve disputes peacefully by managing internal relations These questions are answered through an analysis of their networking processes and illustrated in the structural properties and dynamics of their mono ethnic criminal network For the first time the BCB players that contributed to the 2001 Canadian and Australian heroin droughts are revealed through intercepted telephone calls and court testimonies It shows how the BCB collectively switched from heroin to ecstasy since the year 2000 The operation logistics of drug importation and local trafficking are scrutinised This book speaks to those interested in how a collective of ethnic Chinese career criminals succeeded and failed in the international drugs trade particularly for scholars and students of social sciences disciplines *Rome* Neil Faulkner,2013-09-13 The Roman Empire is widely admired as a model of civilisation In this compelling new study Neil Faulkner argues that in fact it was nothing more than a ruthless system of robbery and violence War was used to enrich the state the imperial ruling classes and favoured client groups In the process millions of people were killed or enslaved Within the empire the landowning elite creamed off the wealth of the countryside to pay taxes to the state and fund the towns and villas where they lived The masses of people slaves serfs and poor peasants were victims of a grand exploitation that made the empire possible This system riddled with tension and latent conflict contained the seeds of its own eventual collapse Travels Teyla Branton,2019-06-19 It s time for

**The American Exporter**, 1926 Ski Style Annie Gilbert Coleman, 2004 Coleman traces skiing from its Norse roots and Alpine influences through the utility of ski travel in the winter Rockies to the rise of Colorado resorts Much more than a history of the sport her work explains how the recreation industry sold the experience of skiing and created mythic mountain landscapes with real problems and a ski culture that exalts celebrity and status over the physical act of skiing Jacket Commerce Reports, 1935-08-17 **Daily Consular and Trade Reports**, 1935 **Human Hierarchies** Melvyn L. Fein, 2012-08-14 Human beings are hierarchical animals Always and everywhere people have developed social ranking systems These differ dramatically in how they are organized but the underlying causal mechanisms that create and sustain them are the same Whether they are on the top or bottom of the heap people attempt to be superior to some other persons or group This is the root of Melvyn L. Fein's thesis presented in *Human Hierarchies: A General Theory* Fein traces the development of changes from hunter-gatherer times to our own techno-commercial society In moving from small to large communities humans went from face-to-face contests for superiority to more anonymous and symbolic ones Societies evolved from hunting bands where the parties knew each other through big men societies chieftainships agrarian empires patronage chains caste societies estate systems and market-oriented democracies Where once small groupings were organized primarily by strong forces such as personal relationships the now standard large groupings are more dependent on weaker forces such as those provided by social roles Bureaucracies and professional roles have become prominent Bureaucracies allow large-scale organizations to maintain control of people by limiting the potential destructiveness of unregulated tests of strength and by clarifying chains of command Their rigidity and unresponsiveness requires that they be supplemented by professional roles At the same time a proliferation of self-motivated experts delegate authority downward thereby introducing a more flexible decentralization This analysis is a unique and significant advance in both the sociology and anthropology of stratification among humans
