1. Why was it significant that George Washington, a Virginian, was selected to be the commander of the Continental Army? (as opposed to a New Englander)
2. Why did the colonists feel it was important to formally declare independence from Great Britain even though New England was already at war with Britain?
3. The Declaration of Independence did not include an abolishment of slavery even though most people in the colonies felt it was wrong to transport Africans against their will to work without freedom. Why did colonists agree not to free slaves in the Declaration of Independence despite Jefferson's call for the "right of life, liberty, and the pursuit of happiness"? Give reasons for both the North and the South.
4. Though the formal army of the colonists was smaller, weaker, less experienced, and less skilled than the British, how did the colonists prove early on that they would put up a strong fight during the American Revolution?
5. Why was the Battle of Saratoga a turning point in the war for the Americans? What did the British learn from this battle? What did the French learn? The Americans? The Indians?
6. Why was the South important to the British? How did the colonial "guerrillas" help keep the British from taking the south and marching north?
7. How did the French help the Americans and force Cornwallis's surrender?

History Alive 8th Grade Not Answers:

Do-Over! Robin Hemley, 2009-05-11 Robin Hemley's childhood made a wedgie of his memory leaving him sore and embarrassed for over forty years. He was the most pitiful kindergartner, the least spirited summer camper and dateless for prom. In fact, there's nary an event from his youth that couldn't use improvement. If only he could do them all over a few decades later with an adult's wisdom, perspective and giant-like height. In the spirit of cult film classics like *Billy Madison* and *Wet Hot American Summer*, in *Do Over*, Hemley reenounters papier m  ch, revisits his childhood home and finally attends the prom, bringing readers the thrill of recapturing a misspent youth and discovering what's most important: simple pleasures, second chances and the forgotten joys of recess.

Teaching When the World Is on Fire Lisa Delpit, 2019-09-17 A timely collection of advice and strategies for creating a just classroom from educators across the country, handpicked by MacArthur genius and bestselling author Lisa Delpit. A favorite education book of the year, *Greater Good* magazine. Is it okay to discuss politics in class? What are constructive ways to help young people process the daily news coverage of sexual assault? How can educators engage students around Black Lives Matter, Climate change, Confederate statue controversies, Immigration, Hate speech? In *Teaching When the World Is on Fire*, Delpit turns to a host of crucial issues facing teachers in these tumultuous times. Delpit's master teacher wisdom tees up guidance from beloved, well-known educators along with insight from dynamic principals and classroom teachers tackling difficult topics in K-12 schools every day. This cutting-edge collection brings together essential observations on safety from Pedro Noguera and Carla Shalaby, incisive ideas on traversing politics from William Ayers and Mica Pollock, Christopher Emdin's instructive views on respecting and connecting with black and brown students, Hazel Edwards's crucial insight about safe spaces for transgender and gender nonconforming students, and James W. Loewen's sage suggestions about exploring symbols of the South, as well as timely thoughts from Bill Bigelow on teaching the climate crisis and on the students and teachers fighting for environmental justice. Teachers everywhere will benefit from what Publishers Weekly called an urgent and earnest collection that will resonate with educators looking to teach young people to engage across perspectives as a means to creating a just and caring world.

If Kids Could Vote Sally Sugarman, 2007-01-01 Building on previous research and including interviews and surveys of children, this book examines the effect of the media, including television, video games, films, books, and text books, on children's ideas about democracy, as well as the implications that their classroom and media experiences have on their preparation for citizenship.

Teaching Girls Peter Kuriloff, Shannon Andrus, Charlotte Jacobs, 2017-12-01 Women continue to be underrepresented in the high-paying fields of science, math, and engineering.
