**History of the Unified Command Plan** Edward J. Drea, 2013

**Climate Change and Aviation** Stefan Gossling, Paul Upham, 2012-05-04 This is a timely challenging and fascinating book on a topic of central importance to the success or otherwise of our climate change policies It sets down a clear marker for what has to be done in the aviation sector Professor John Whitelegg Stockholm Environment Institute University of York UK Climate Change and Aviation presents a clear picture of the transport sector s greatest challenge how to reconcile aviation s immense popularity with its considerable environmental damage and its dependence on liquid hydrocarbon energy sources This book avoids wishful thinking and takes the much harder but more productive path of considering difficult solutions that clash with short term and short sighted expectations about the unlimited growth potential for flying Professor Anthony Perl Urban Studies Program Simon Fraser University Canada A convincing and timely collection that brings together an impressive range of expertise The book integrates various perspectives into a powerful core argument we must do something and quickly to tackle the impact of aviation on our environment The authors recognise the political difficulties associated with promoting change but present constructive options for policy makers Required reading especially for transport ministers set on promoting the growth of air travel Professor Jon Shaw Director of the Centre for Sustainable Transport University of Plymouth UK Trends such as the massive growth in availability of air travel and air freight are among those which have led to aviation becoming one of the fastest growing emitters of greenhouse gases These trends have also caused a shift in expectations of how we do business where we go on holiday and what food and goods we can buy For these reasons aviation is and is set to stay high up on global political organizational and media agendas This textbook is the first to attempt a comprehensive review of the topic bringing together an international team of leading scientists Starting with the science of the environmental issues it moves on to cover drivers and trends of growth socio economics and politics as well as mitigation options the result being a broad yet detailed examination of the field This is essential reading for undergraduate and postgraduate courses in transport tourism the environment geography and beyond while also being a valuable resource for professionals and policymakers seeking a clear understanding of this complex yet urgently pressing issue

Legal Integration and Language Diversity C.J.W. Baaij, 2018-02-01 How can the European Union create laws that are uniform in a

multitude of languages Specifically how can it attain both legal integration and language diversity simultaneously without the latter compromising the former C J W Baaij argues that the answer lies in the domain of translation A uniform interpretation and application of EU law begins with the ways in which translators and jurist linguists of the EU legislative bodies translate the original legislative draft texts into the various language versions In the European Union law and language are inherently connected The EU pursues legal integration i e the incremental harmonization and unification of its Member States laws for the purpose of reducing national regulatory differences between Member States However in its commitment to the diversity of European languages its legislative institutions enact legislative instruments in 24 languages Language Diversity and Legal Integration assesses these seemingly incompatible policy objectives and contemporary translation practices in the EU legislative procedure and proposes an alternative source oriented approach that better serves EU policy objectives Contrary to the orthodox view in academic literature and to the current policies of the EU this book suggests that the English language version should serve as the original and only authentic legislative text Translation into the other language versions should furthermore avoid prioritizing clarity and fluency over syntactic correspondence and employ neologisms for distinctly EU legal concepts Ultimately Baaij provides practical solutions to the conflict between the equality of all language versions and the need for uniform interpretation and application of EU law

*Public Communication in the European Union* Giorgia Nesti, Chiara Valentini, 2010-01-08 This book is a collection of essays that analyse and discuss EU information and communication policies and activities towards with by different publics developed both by the EU institutions at the European national and local levels and by public organizations and civil society actors Throughout six thematic parts the authors examine from different theoretical perspectives political communication journalism public relations and public diplomacy political science and cultural studies and reflect on what it means for the European Union to communicate in multi national and multi cultural settings The originality and strength of this book stand on the capacity to discuss EU communication policies strategies and actions in their diverse features and at the same time to have a clear general picture of the role and function that communication has within the European Union s governance The combination of different theoretical frameworks with the latest empirical research findings makes this book a fresh and fascinating collection of insights of what the European Union can achieve with strategic communications

**Air Force Journal of Logistics**, 2009 *The Canadian Rangers* P. Whitney Lackenbauer, 2013-05-01 The Canadian Rangers stand sentinel in the farthest reaches of our country For more than six decades this dedicated group of citizen soldiers has quietly served as Canada's eyes ears and voice in isolated coastal and northern communities Drawing on official records interviews and participation in Ranger exercises Lackenbauer argues that the organization offers an inexpensive way for Canada to show the flag from coast to coast to coast The Rangers have also laid the foundation for a successful partnership between the modern state and Aboriginal peoples a partnership rooted in local knowledge and crosscultural understanding

**Growing Information: Part 2** Eli B. Cohen, 2009 [Military Design Thinking](#) Aaron P. Jackson, 2024-09-30 This book examines the newly emergent field of military design thinking how it has been developed inside and outside of military doctrine and the paradigms that underlie its key thinkers and methodologies From the emergence of its initial methodologies in the late 1990s military design thinking's development rapidly accelerated in the mid 2000s in response to perceived failures of existing military doctrine and practice to adapt to the wars of the early 21st century To establish a foundation for exploring the significance of the challenge military design thinking presented to dominant approaches to warfare the early chapters in the book examine the ontology and epistemology of military doctrine which is defined as a written expression of a military's institutional belief system regarding how to wage war They also explain how attempts to incorporate military design thinking into doctrine ultimately led to its assimilation into this belief system requiring military design thinkers to continue to explore and develop the field outside of doctrine Since the mid 2010s non doctrinal military design methodologies have become increasingly prominent within several Western militaries including the US Canada UK Australia and several European militaries Later chapters offer an exploration of the paradigms underlying non doctrinal as well as doctrinal design methodologies This book highlights how the field has evolved shows how military design thinking differs from its civilian equivalents developed in fields such as commerce and business management and

discusses how it may evolve in the near future This book will be of much interest to students of military studies security studies and international relations as well as to military professionals *Professional Journal of the United States Army*, 2011 **Military Review**, 2011-07 **The Profession of Arms**, 2011 **Tax Treaty Case Law around the Globe 2019** Michael Lang, Alexander Rust, Jeffrey Owens, Pasquale Pistone, Josef Schuch, Claus Staringer, Alfred Storck, Peter Essers, Eric Kemmeren, Cihat Öner, Daniel Smit, 2020-07-22 A Global Overview of International Tax Disputes on DTC This book is a unique publication that gives a global overview of international tax disputes on double tax conventions and thereby fills a gap in the area of tax treaty case law It covers the forty one most important tax treaty cases which were decided around the world in 2018 The systematic structure of each chapter allows for the easy and efficient study and comparison of the various methods adopted for applying and interpreting tax treaties in different cases With the continuously increasing importance of tax treaties Tax Treaty Case Law around the Globe 2019 is a valuable reference tool for anyone interested in tax treaty case law This book is of interest to tax practitioners multinational businesses policymakers tax administrators judges and academics **American Foreign Policy and Postwar Reconstruction** Jeff Bridoux, 2013-01-11 On the eve of the invasion of Iraq President G W Bush argued that if setting up democracy in Japan and Germany after WW II was successful then it should also be successful in Iraq This book provides a detailed comparison of the reconstruction of Japan from 1945 to 1952 with the current reconstruction of Iraq evaluating the key factors affecting the success or failure of such projects The book seeks to understand why American officials believed that extensive social reengineering aiming at seeding democracy and economic development is replicable through identifying factors explaining the outcome of U S led post conflict reconstruction projects The analysis reveals that in addition to the effective use of material resources of power the outcome of reconstruction projects depends on a variety of other intertwined factors and Bridoux provides a new analytical framework relying on a Gramscian concept of power to develop a greater understanding of these factors and the ultimate success or failure of these reconstruction projects Appraising the effectiveness of American power in the contemporary international structure this work is a significant contribution to the field and will be of great interest to all scholars of foreign policy international relations and conflict studies Energy, Bio Fuels and Development Edmund Amann, Werner Baer, Don Coes, 2011-03-07 This collection examines the important and topical issue of the economic social and environmental implications of concerted attempts to diversify energy sources away from fossil fuels The book expertly examines this issue by focussing on the contrasting experiences of two major economies one developed and the other a rapidly expanding emerging market Energy Bio Fuels and Development evaluates the experience of Brazil with elements of that of the US highlighted for the purpose of comparison A key area of concern surrounds the causes and consequences of the contrasting routes to biofuel production represented by sugar cane in Brazil and corn in the US The book also places the recent biofuels drive in perspective by discussing the broader energy policy context The book shows the complexity and interdependence of

the issues involved in moving a society reliant on non renewable energy sources to one based on alternative sources of energy The key conclusion to emerge is that Brazil in pursuing a flexible mix of fossil fuels and bio fuels has greatly diminished its exposure to exogenous energy shocks The US experience in particular its development of corn based ethanol has been more problematic though by no means without successes It is argued that bio fuels should not be seen as a panacea There are clear limits to the efficiency and cost effectiveness of current biofuel production technologies while there remain concerns surrounding potentially adverse effects on food production and rural livelihoods This book should be an excellent resource for students focussing on economic development particularly in the areas of energy biofuels rural development and food supply
