Redefining Health Care Michael E. Porter, Elizabeth Olmsted Teisberg, 2006 The U S health care system is in crisis At stake are the quality of care for millions of Americans and the financial well being of individuals and employers squeezed by skyrocketing premiums not to mention the stability of state and federal government budgets In *Redefining Health Care* internationally renowned strategy expert Michael Porter and innovation expert Elizabeth Teisberg reveal the underlying and largely overlooked causes of the problem and provide a powerful prescription for change The authors argue that participants in the health care system have competed to shift costs accumulate bargaining power and
